GOLDEN FLUTE

A FEW WORDS

Before we get into our 1952 catalogue, just a few words. Another season gone by—another catalogue written and presented to you. We hope you will enjoy it and we hope you will take it in the spirit it is written, bearing in mind that we all do not see alike. We try to be more than fair and if we criticize, we are calling the shot as we see it. Some varieties demand certain conditions, to be at their best, and maybe we do not have those conditions. Maybe we do, and then we are unduly favorable in our comments. Some growers have plenty of water and we are one of those, enabling them to produce better spikes than the man without irrigation. All in all, our comments are based on our own growing and from gardens under our frequent visiting.

PRICES

Now - about prices All of us realize that everything costs more than it did several years ago. Labor, supplies catalogues, postage - everything going into the business costs more. We have kept our prices as low as we can and still make a profit. Unless otherwise stated, the prices shown are the each price. On the lower prices varieties, the price will appear as 12/\$1.00, indicating 12 bulbs for \$1.00. If you desire less than 12 bulbs of these varieties, consult the table below for prices. Please do not order less than the quantity shown in the catalogue, except where the pricing is indicated below. Except when the dozen price is shown 10 bulbs may be had for 8 times the each price, 100 bulbs may be had for 64 times the each price.

Where listed by the dozen prices, you may buy lesser quantities on the following basis:

Catalogue Price	Half Dozen Price	Smaller Quantity Price
12/1\$1.00	6 for 50c	2 for 25c
12/95c	6 for 48c	2 for 25c
12/90c	6 for 45c	2 for 20c
12/85c	6 for 43c	2 for 20c
12/80c	6 for 40c	3 for 25c
12/75c	6 for 38c	
12/70c	6 for 35c	
12/65c	6 for 33c	
12/60c	6 for 30c	
12/50c	6 for 25c	

No quantity less than 25c, except as above noted.

PLEASE NOTE — when using the hundred rate or price - shipment is made F.O.B. Aurora and you pay shipping charges. If you order has both wholesale and retail items in it, shipment will be made collect but we will include enough extras to take care of the shipping charges on the retail items. 25 bulbs may be had at the 100 price but shipment will be made collect.

We aim to sell only quality stock, the kind you are willing to pay a little more to get. Neverceasing care is excercised in rogueing all questionable bulbs in the field. Doubtful bulbs, whenever discovered, are promptly disposed of - this cost money but it pays in the satisfaction of knowing that our bulbs are good ones. We will prepay retail shipments on all orders over \$3.00. Underthat, please include 10% extra for shipping costs. See note above about wholesale shipments.

EXPERIMENTS

Being born with a bump of curiosity, we can't refrain from trying new things now and then. Last year, we tried two successful ones. Perhaps you have tried them too, but anyway, here goes—

STRAW MULCHING—not new by any means but very successful for us. Spikes six inches or more higher than unmulched. More florets and larger. Bigger bulbs. More moisture in the ground for a longer time after rains. Less weeds. Caution—a fire hazard—rather unsightly. Mulch should be about three inches thick, applied when the spikes are about six inches tall. Be sure to shake all the wheat kernels out of the straw, or you will have a wheat field growing in your glad patch.

SEEDS IN BANDS—a remarkable time saver and very good results. Three of four seeds were planted in a 3" band, or one seed in a 1-3/4" band, and the bands were then moved to the cold frames. Results excellent—Bands are planted close together, no trouble to keep them watered. Easy to keep track of each cross—five bands of this cross—ten of that, etc. And when you come to dig in the fall, oh! how nice and easy. No wondering if this seed belongs in the previous lot. Each band is easily dug, coming out in a three inch cube with no trouble separating the bulbs from the dirt. No danger in leaving bulblets in the cold frame to grow up next year as few if any of the roots go down below the three inch bottom. Well worth the cost of the bands. You can gain extra time too if you start the bands in flats inside and thus get a little larger bulb. We even had one or two bloom from seed planted in the greenhouse in February and transplanted outside in May.

SHIPPING

With special handling, shipments can be made almost anytime, but we prefer, if possible, not to start shipping before early March. We usually check weather reports very carefully before shipping to the colder states and have often held up shipment for a week or ten days when there are adverse weather reports.

EARLY ORDERS

Each year we make a plea to you to get your orders in as early as possible. By getting your orders early, we are able to fill them without any rush. It is easier to give you what you want as the stocks are not depleted, there is a full tray to pick from, and all sizes are in stock. It gives us more time to pick out extras which we think you would like. We try to start planting early in April (April 7th this year) which reduces the stocks we have available and cuts down on the time we have for filling orders. We certainly would appreciate your early ordering.

If possible, orders sent after the middle of March should provide for substitution of size, and if possible, for substitution of varieties. When we substitute, we always try to give a greater value on the substituted item than was called for on the original item.

EXTRAS

Some of the fun of buying bulbs is the opening of the package to see what the shipper included in the way of extras. Sometimes you get a package where if you ordered ten, you get ten, and maybe one or two extras. Then again, you will get a package where the ten counts out to eleven to twelve and you find four or five different extras, depending upon the size of the order.

We would sooner be in the last class, so do not be embarrassed about suggesting extras. What we can do depends upon the size of your order and when we get it. The early orders give us more time to fill, we can work them at times when the weather is bad, and we have a much better stock to select from. We would appreciate your suggesting the extras you would like.

ARASAN—It isn't any desire on our part to get into selling anything but bulbs but we do have inquiries for various items. We use a lot of Arasan, it is convenient and much easier to use than a dip. We put some bulbs in a bag, a spoonful or two of Arasan and shake the bag a few times. This seems to cover the bulbs thoroughly. If you can't plant them right away, no harm is done. In fact, we dip each bulb when we clean it, into a mixture of Arasan and DDT dust with excellent results. If you want, we can furnish eight ounce cans of Arasan for \$1.00.

PLANTING INSTRUCTIONS

Planting instructions will be included in all shipments—the latest up to date instructions, prepared by experts.

EXPLANATION OF LISTINGS

Variety will be listed as follows:

ADORATION (Klein 48)	70 days	460
-----------------------------	----------------	------------

Adoration is the variety name.
 Klein is the name of the originator.
 48 stands for the year of introduction.
 70 days, is the average time from planting until blooming of a large bulb. Smaller sizes will take longer.
 460 is the color classification and size.

SIZE

"L" indicates large size bulbs, measuring more than $1\frac{1}{4}$ " in diameter.
 "M" indicates a medium size bulb, $\frac{3}{4}$ to $1\frac{1}{4}$ " in diameter.
 "S" indicates a small bulb, under $\frac{3}{4}$ " in diameter.
 "B" indicates bulblets.

Large bulbs will give you the best bloom—but they cost you more.

Medium sizes will frequently produce good show spikes and will produce saleable spikes.

Small sizes will as a rule, bloom, but the spike they produce is not as good as you would get from a larger sized bulb. Once in a while, a variety will produce saleable spikes from small bulbs, but do not count on it. Small sizes are the cheaper, but they take a year longer to get the best results—as a rule, they will produce large bulbs for the following season.

Bulblets or cormlets are the cheapest way of getting start in a variety, but also the slowest way. With good growing conditions and particularly with some varieties, you may get large bulbs, but it is far safer to figure on getting a few medium and a number of small bulbs the first year. These, planted the next year, will generally give you large bulbs for the second year. Some bulblets are hard to germinate and you may get a very poor stand. Others will germinate readily. If possible, peel or crack the hard shell of the bulblets before planting. We ran an experiment in the greenhouse several years ago on this. A row of peeled bulblets, a row of cracked bulblets and a row without any special preparation. The peeled bulblets were the first to appear, followed by the cracked bulblets and then by the test bulblets. The peeled bulblets were up two to four inches before the first test bulblet was through the ground.

A word of caution—Once in a while you will see a big splash advertisement, offering 100 large bulbs for say \$2.00—some low and seemingly attractive price—going on to say something about the bulbs being large bulbs, fully one and three quarter inches in circumference. Our bulbs are graded on the diameter size—a one and three quarter inch circumference bulb is what we would class as a small size. Do not be misled.

SUBSTITUTIONS

We will not substitute unless you give us permission to do so. We would appreciate permission to substitute sizes if possible, and we would also like to be able to substitute varieties, especially late in the season when our stocks are depleted.

GUARANTEE

We guarantee our bulbs to be true to name and free from disease or trip. Please open the package immediately upon receipt, examine carefully, and if not satisfactory, advise us at once. All of us make errors once in a while and if any of the bulbs are found to be not as represented, we will either refund your money on their return, or we will replace the unsatisfactory stock. However, we can at no time be liable for more than the original amount paid for the bulbs. Due to conditions beyond our control, we are not responsible for the growth of bulbs or bulblets. All orders are placed with this understanding. Both the field and the bulbs have been state inspected, giving us added assurance that are shipping disease and thrip free bulbs.

ABU HASSAN (K&M 47) 77 days 378

Dark blue on tall straight spikes. One of those colors that most people like. Has interesting possibilities for bringing out colors when mixed with other flowers in a bouquet. Healthy, good propagator. Holds 5 to 6 open on a 16 to 18 bud spike.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

ADORATION (Klein 48) 70 days 460

A pastel shade of rosy orchid with a creamy white throat, a crisp lightly ruffled floret, 5 to 7 florets on nice straight willowy stems and you have Adoration. It is early and fills in nicely in that color class early in the season. Well liked commercially as it is easy to blend with other colors.

Price L 2/35c M 3/35c S 4/25c B 25/25c

ALGONQUIN (Palmer 39) 80 days 536

With 6 to 8 needlepointed brilliant scarlet florets open on an ornate spire, we have a very useful glad. A light marking down the middle rib gives it added beauty. Strong grower with well proportioned spikes. Good market flower and a good show flower. Started in pots in the greenhouse transplanted outside May 1st, we picked excellent spikes before the end of June. Apparently well adapted for such handling.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

ALICE ADAMS (Briggs 49) 80 days 442

A pleasing combination of pink and white with a sharp break between the pink and white. Holds 6 open with 8 to 10 buds in color on an 18 to 20 bud spike. Spikes are tall and sturdy, but we noticed a little crooking this year. The color combination is a good one and this one should make the grade as a commercial, with good show possibilities.

Price L 20c M 15c S 3/25c B 10/20c

ALJECHIN (K&M 51) 85 days 470

One of the good ones from Holland. A deep glistening violet purple with a darker shading in the throat. Will hold lots open on good tall spikes of excellent proportions. Opens well when cut tight. Healthy grower, good propagator and looks like a good one for commercial work. Well worth looking at.

Price L 25c M 20c S 2/25s B 10/20c

ALL GLORY (Toon 46) 70 days 423

If you like lots of contrast in your spikes, then All Glory will appeal to you. An intense orange, bordering on the scarlet side, with a striking and prominent purple blotch. Opens up to 6 florets on tall straight spikes with good attachment and placement. Burns in the sun, so it must be cut and opened inside.

Price L 2/25c M 3/25c S 5/25c B 25/25c

A. L. STEPHENS (Windsor 42) 85 days 433

Orange pink with a red throat blotch. Six attractive good sized blooms are open on medium tall spikes. One of the better blotched varieties.

Price L 12/\$1.00 M 12/80c B 50/25c

ANNA MAE (Pommert 40) 70 days 400

An informal early white without any trace of cream. Good commercially because of its earliness. Bud sheaths are dark colored. Straight spikes with about six open, six in color with good proportions.

Price L 12/75c M 12/60c

ATATURK (Salmon) 75 days 354

Dark purple with a black shading. One of the best in its color class and a good competitor in any show. Holds 6-8 open well shaped florets on tall upright spikes. Propogates well. Placement and spacing excellent.

Price L 50c B 3/25c

ANNETTE (Dowling 48) 85 days 500

Combine good growth, large size florets, nicely attached, with 6 to 8 open, plenty more in color, and you have Annette. Add to this your pure white florets, with a tapering spike, all this will give you a good one.

Price L 2/25c M 3/25c S 5/25c B 25/25c

ATHENE (Kuhn 49) 75 days 400

A white that seems to have been overlooked. Pure white, shading to cream in the throat. Tall straight spikes with never a crook. Tall long flower heads, 8 or more open and up to 25 buds. Florets are plain petaled, rounded and seem to take the sun and wind without any damage. Placement is perfect. We liked it very much last year and much more this year. Will replace some the early whites when the stock becomes more widely distributed.

Price L \$1.50 M \$1.00 S 50c B 2/25c

ATLANTIC (B&P 46) 75 days 422

Atlantic is one of those glads that naturally holds lots open and nearly anyone can get a spike with 6 to 8 open. Attractive in color, a vivid red orange (coral) with tall straight spikes, and are well proportioned and well balanced. Recommended as one that will make show table and also make a very good commercial. Every spike in the row seems to be as good as its neighbor.

Price L 2/25c M 3/25c S 5/25c B 25/25c

AUREOLE (Pruit 49) 80 days 410

Introduced without too much fanfare, Aureole seems to have been somewhat overlooked in the general run of yellows. A medium shade of yellow, very clean with nice ruffling, even with yellow stamens. Almost a self color with the ruffling giving enough contrast to take away any plainness. Holds five to six open on medium tall well proportioned spikes. We like it very much and think you will too.

Makes very large bubblets which germinate very well.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

BEACON (Palmer 35) 90 days 437

A well grown Beacon is hard to beat anywhere. Tall, husky spikes of a clear bright rose scarlet with a very pronounced creamy yellow blotch. Six to eight open, 4 to 6 in color. An old timer hard to beat.

Price L 12/85c M 12/60c S 12/40c B 50/25c

BEAUTY'S BLUSH (Fischer 47) 85 days 440

I wish this had either a little more color or a little less for we have a nice flower in Beauty's Blush. A white, with a pinkish cast, showing up more at the edges of the florets, although not pronounced at any time. Placement of the 7 or 8 florets that it will hold open is excellent. It grows well, propogates nicely and makes an all around nice spike, tall and well proportioned. Works in nicely with other colors.

Price L 12/\$1.00 M 12/80c S 12/60c B 50/25c

BENJAMIN BRITTEN (K&M 49) 80 days 366

A deep toned lavender, almost into the purple class. White pencil marks on the lip petals. Tall vigorous spikes with large florets. Will hold up to 8 open without any trouble. Seems to be an all around good one for show and commercial.

Price L 25c M 2/25c S 4/25c B 20/25c

BERNECE (Gray 38) 80 days 390

An excellent glad for arrangements or corsage work, but not much good for show purposes. Deep golden yellow, flaked with bronze. Planted early, it gives us a very useful color early in the season. Planted late, it blends exceedingly well with fall colors. It only holds four or five open and has about 15 buds on a medium size spike. Just one of those that you like in spite of its handicaps. Cuts medium length spikes as the leaves are wide apart.

Price L 12/90c M 12/70c S 12/50c B 50/25c

BETTER TIMES (K&M 46) 80 days 376

A light blue, very clean with a deep violet throat marking tipped with white. Will hold about 5 to 6 open on an 18 bud spike, medium tall and straight. One of the nicer blues.

Price L 2/25c M 3/25c S 5/25c B 15/25c

BETTY'S CHOICE (Harris 45) 85 days 360

If you are attracted to Coutt's Orchid a light orchid rose, then you should like Betty's Choice with about the same general coloring. Attractively ruffled, with 6 open on a good spike, but not too big size on the florets.

Price L 12/85c M 12/70c S 12/50c B 50/25c

BIRCH RED (Rich 45) 90 days 552

A good dark red with 6 to 8 large florets open on an 18 to 20 bud spike. Florets are wide open, well placed on tall straight spikes. Outside of burning in the sun, seems to be good. Cut early and open inside for best results. If you like the darker reds, be sure to look at Birch Red.

Price L 25c M 2/25c S 4/25c B 15/25c

BLACK OPAL (Errey 36) 90 days 354

Each year, we seem to sell out of Black Opal. It is hard to beat anywhere. Dark red, with up to 8 open on tall straight husky spikes. Florets are wide open, rounded in form. A good commercial and a very good show flower.

Price L 12/1.00⁰ M 12/65c S 12/40c B 50/25c

BLACK PHANTOM (Cave) 43) 85 days 454

For a dark red, this is nice. Holds about 8 open on tall strong growing spikes. Will burn in the sun so must be opened inside. I think you will like this. (Formerly called Paul Robeson.)

Price L 2/35c M 3/35c S 4/25c B 20/25c

BLESSED DAMOSEL (Baerman 44) 95 days 440

A glowing shell pink with an exceedingly attractive waxy texture. A touch of cream in the throat increases its attractiveness. A beautiful color combination, which, if it would only grow taller spikes, would be one of the leaders. Only holds four or five open and spikes are not too tall, but very beautiful where you can use the shorter spikes.

Price L 12/85c M 12/60c S 12/40c B 50/25c

BOISE BELLE (Roberts 48)

98 days 443

We fell hard for Boise Belle the first time we saw it bloom and have been a booster ever since. A glad that will perform well under adverse conditions and that will outdo nearly everything in the garden under ideal conditions. Florets of creamy yellow, harmoniously defined with a pink halo and a complimentary edging of pink on the lip petals. Will hold as many as 12 open and still make a nicely balanced spike, for the remaining 10 to 12 buds will be from half open to just showing color. Performance is best from large bulbs. Plant early to make the shows. You will not be disappointed in Boise Belle.

Price L 50c M 35c S 25c B 10/35c

BOLDFACE (Evans 47)

82 days 533

Very attractive and well named for truly it is very bold. A brilliant deep salmon with a pronounced white throat on which is a noticeable black red brush mark. Florets are large, well ruffled, well attached and an exceptionally heavy strong spike carried them well. Very attractive and a good prospect for grand champion. Will hold up to eight open.

Price L 25c M 2/35c S 2/25c B 10/25c

BOLERO (Leffingwell 41)

85 days 490

Arrangers like Bolero very much for its smoky orange color, its fluted, ruffled and needle pointed florets. Just the thing for those exotic arrangements. Florets are somewhat triangular in shape and have a dark red blotch, blending well with the base color. Will hold about five open on medium tall wiry stems. An unusual color, an unusual glad.

Price L 12/\$1.00 M 12/60c S 12/40c B 25/25c

BONFIRE (Fischer 50)

80 days 436

Wide open bright scarlet, one of those glads that seem to have lots of color. Will hold 6 to 8 florets open on tall nicely proportioned spikes. Spikes are straight and tall. Nice.

Price L 20c M 2/30c S 3/30c B 20/35c

BOLUOGNE (Salman 47)

85 days 562

Do not pass up Boulogne - really one of the nicest in a long time. Clean wine red, similar in color to Burma, but plain petaled instead of ruffled. Tall spikes with 8 open, well placed and nicely proportioned. Propogates well. Winner at the shows and an excellent commercial. Reasonable in price.

Price L12/\$1.00 M 12/65c S 12/40c B 50/25c

BUCKEYE BRONZE (Wilson 40)

90 days 490

With an all around appeal, Buckeye Bronze, with its beautifully ruffled bronze florets and a medium tall nicely tapered spike, fits nicely into arrangements, show work or commercial work. A little on the reddish side and to get best results it is necessary to use large bulbs. Unusually attractive.

Price L 12/1.00 M 12/65c S 12/40c B 50/25c

BURGUNDY (Scheer 42)

90 days 452

An attractive dark red to add to your collection of dark reds. Has a slight rosy cast to the floret, relieving the monotony of one color. Holds 6 open on medium tall nicely proportioned spikes.

Price L 12/75c M 12/60c S 12/40c B 50/25c

BURMA (Palmer 43) 88 days 562

Nearly all the buds will show color before the first floret opens. Florets are deep dark rose, shading lighter to the throat, are well placed, well attached on tall straight spikes. Six to eight open with nearly every bud showing color. Burma gave championship spikes from a greenhouse planting, transplanted outside May 1st with excellent spikes July 5th.

Price L 12/1.00 M 12/65c S 12/40c B 50/25c

BUTTERSCOTCH (Langworthy 48) 90 days 517

Buff with a soft tinge of salmon and a rosy salmon colored blotch. A very nice color combination. Has large somewhat ruffled florets with 6 or more open on tall, nicely balanced spikes. Has good attachment, placement, propagation and germination. Worth looking at and very interesting in your fall color work.

Price L 25c M 20c S 2/30c B 10/25c

CAPTAIN KIDD (Roberts 50) 80 days 452

For richness and sparkle, you will have to go a long way to surpass Captain Kidd with its glowing deep blood red florets. 6 - 7 open on tall spikes. Stands the heat and sun very well. Does not burn fade or wilt. Good propagator.

Price L \$1.50 M \$1.00 S 60c B 3/25c

CARNIVAL (Butt 47) 85 days 437

It is a toss up as to which to like better - Bold Face or Carnival. Both are exceedingly attractive. Carnival with its scarlet red and its unusually attractive white blotch certainly makes an attention getter any place you see it. It will hold about 8 open on medium tall straight spikes. Florets are well attached and the spike is well proportioned. Looks very good for show and commercial. Good propagator.

Price L 2/35c M 3/35c S 4/25c B 25/25c

CASABLANCA (Majeski 44) 95 days 400

Tall straight spikes of nicely ruffled white florets makes this a good commercial. Holds about 6 open with plenty of buds in color. Nice all around and very useable.

Price L 12/75c M 12/60c S 12/40c B 50/25c

CECILY ANN (Errey 50) 85 days 440

A very attractive soft coral pink with a cream throat. 8 or more open tall straight tapering spikes. Its performance has been excellent and we think you will hear more from Cecily Ann. Not too widely introduced as yet but worth looking at.

Price L \$2.00 M \$1.50 S \$1.00 B 25c

CHAMOUNY (Baerman 38) 85 days 362

One of the outstanding rose colored glads. The silvery edging on the cerise rose petals gives us an "eyecatcher", from a color point alone. Add to this, the ability to hold up to ten open, with tall straight nicely proportioned spikes, and you have a good one. Tops for performance, color, beauty, commercial and show work. Bulbs seem to be rough and not at all attractive in appearance, but they certainly produce winners.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

CHARMAINE (New 40) 75 days 360

A three hundred size that grows like a five hundred. Tall, well shaped spikes of a medium rose shade, six open and plenty of buds in color to make a good florists spike. Crisp in appearance with a darker throat. Early and a good florist flower. Will also win on the show table because of the nice all around way it performs.

Price L 12/80c M 12/60c S 12/40c B 50/25c

CIRCE (K&M 49)

85 days 523

Exceedingly attractive with its clean russet orange florets. Has a small red throat mark surrounded by a creamy yellow blotch. Holds up to 8 open on tall spikes. Very vigorous with heavy plant growth. Propogates well. One of the cleanest colors that we grow. You should like it very much.

Price L \$1.00 M 75c S 50c B 3/25c

COLOGNE (Roberts 48)

80 days 342

A seedling of New era and Incense. A bright and attractive deep pink with a cream throat, although the color could almost be classed as scarlet, so deep is the color. In addition to a noticeable fragrance, Cologne is pretty enough to want to grow it for its color alone. Frequently transmits its fragrance to its seedlings.

Price L 30c M 20c S 2/25c B 10/25c

COLOR MARVEL (Kreuger 46)

75 days 316

A winner in the 316 class. An orange yellow with a slight pinkish cast. Will hold 5 open on a 20 bud spike that is tall and wiry. Attractive color, blending well with other colors. Good grower - propagates nicely.

Price L 12/90c M 12/60c S 12/40c B 50/25c

COLONEL W. G. ATKINSON, (Williams 51)

100 days 466

A clear shade of lavender, several shades darker than Siboney and Elizabeth the Queen. Almost no markings. Will hold 8 open on a tall 20 bud spike. Florets are large and ruffled. Rated high at the test gardens. Outside of being a little late in blooming, seems to be very good.

Price L 50c M 40c B 12/50c

COLUMBIA (Roberts 51)

85 days 407

If you like Corona you should like Columbia much better, for it is very similar to Corona without some of Corona's faults. A clear creamy white, with an edging of a medium shade of rose. Edging is quite heavy and noticeable. Straight graceful stems with much better attachment and above all, healthy.

Price L \$3.00 M \$2.50 S \$2.00 B 35c - 10/\$2.50

CONNECTICUT YANKEE (Schenetsky 44)

90 days 441

Consistently holding 8 or more open florets, Connecticut Yankee has been a winner many times on the show table. A nice shade of pink with a sharp orange blotch, maybe not too nice a color combination, but its otherwise excellent performance makes it a contender. Florists like it. Priced within reason so that anyone can now grow it.

Price L 2/25c M 3/25c S 5/25c B 25/25c

CONNIE G (Woods 48)

75 days 506

Capable of making wonderful spikes, but needs care to do so. Heavily ruffled florets of cream with a yellow throat, blended well with the cream. Florest are of heavy texture, well attached. Placement is good except possibly the first floret. Florets do not open until nearly all the buds are in color. Blubs are inclined to watermark but that does not seem to hurt the flower or the germination.

Price L \$1.00 M 75c S 50c B 2/25c

CORONA (Palmer 40)

80 days 560

Some Corona stock has only a light edging, but our stock has a rose edging, sharply defined and very attractive. Cream white petals, shading deeper in the throat. Very attractive. Tall husky spikes, straight, with excellent placement and attachment. A good show flower and excellent commercial.

Price L 12/75c M 12/60c S 12/40c B 50/25c

COUTT'S ORCHID (Coutts 41) 85 days 560

Large round petal florets of light orchid rose with a cream throat. An attractive color combination and appealing. A little on the soft side for commercial work, but for home decoration it is hard to beat. Some bulbs produce a light edging around the floret.

Price L 12/\$1.00 M 12/70c S 12/50c B 25/25c

COVER GIRL (La Salle 45) 90 days 542

6 to 8 florets of medium shade of pink will open on tall straight spikes. Florets are nicely ruffled, well placed and with good attachment. Well liked by the florists. Handles nicely in arrangements.

Price L 12/75c M 12/60c S 12/40c B 50/25c

CRACKER JACK (Allen 46) 80 days 425

Color is deep orange shading to yellow in the throat, with a red blotch deep in throat. Inclined to fleck. Holds 6 open 6 in color with about 18 buds. Spikes are straight and of medium height. Planted early, this should make a good flower for the early market. Needs big bulbs to get best results.

Price L 12/75c M 12/60 S 12/40c B 50/25c

CRIMSON TIDE (Roberts 45) 90 days 452

Iridescent or glowing deep crimson red with a small white mark in the throat, sometimes extending down the middle rib of the lower petals. Like a peice of ruffled velvet. Not to tall, could stand a few more open, but exceedingly attractive - useable anywhere. Florists like it very much.

Price L 30c M 20c S 2/25c B 20/25c

CRINKLE CREAM (Ellis 40) 85 days 410

A nice yellow, clear and light, with enough rufflings to make it attractive to anyone. Does not hold too many open, but gives the appearance of lots of flower because of the size of the florets. Placement and attachment good, spike nicely proportioned.

Price L 12/80c M 12/60c B 50/25c

C. ROBERTS (Both 48) 85 days 452

A lustrous shade of cerise red a little on the orange side best describes C. Roberts. A harmonious purple throat spot adds to its attractiveness. Tall spikes, about six wide open florets with good placement. On the unusual side and attractive to everyone.

Price L 30c M 20c S 2/25c B 10/25c

CYNTHIA (Graff 49) 75 days 410

A soft shade of light yellow, almost a self color. 6 or more large wide open florets with about 6 buds showing color. Spikes tall and straight with good proportions.

Price L \$1.00 M 75c S 50c B 2/25c

DAISY MAE (Lins 45) 90 days 521

Producer of tall excellent spikes, but lacking in a good color value. Nevertheless, it is liked by a good many people, and well liked in the floral trade. Orange salmon with a blotch of cherry red. Wins at the shows because of its ability to hold 6 to 8 open and its tall straight husky spikes.

Price L 12/90c M 12/60c S 12/40c B 50/25c

DAYDREAM (Roberts 47) 70 days 430

Lots of ruffling on this early pale pink. 6 or more open on tall spikes with good performance all around this year. Spikes were straight and well proportioned. Outside of considerable flecking, very good, particularly so because of its earliness.

Price L 2/25c M 3/25c S 5/25c B 20/25c

DIADEM (Lines 46) 75 days 460

A pastel shade of rose, on the pink side, blended attractively into a cream throat. One of the few fragrant glads pretty and attractive enough to warrant growing. Fragrance is most noticeable the day following cutting.

Price L 50c M 25c S 2/25c B 15/25c

DIEPPE (Hassel 45) 85 days 436

An attractive color combination of dark salmon red with a darker blotch in the throat. Add 6 to 7 open, tall uniform spikes of nice proportions. Lightly ruffled with excellent substance. Very good and well liked all around.

Price L 12/1.00 M 12/60c S 12/40c B 50/25c

DOLLY VARDEN (Harris 50) 95 days 532

If you discarded Alladin because of its short head, but still liked it, then by all means, look at Dolly Varden. A huge salmon on the darker side, with a white throat mark that carries down the midrib. Very large rounded florets, six to seven open, with nice balance on the spike. Spike is heavy enough to support the large head. Healthy, good propagator. Has the makings of a winner at the shows.

Price L \$1.25 M \$1.00 S 75c B 20/\$1.00

DONNA (Pruitt 40) 95 days 416

An attractive ruffled beauty of golden buff that somehow holds ones attention. Will hold six open on tall straight spikes. Florists like it very much as it blends well with other colors. Makes up nicely alone in a vase if you want it that way.

Price L 12/80c M 12/60c S 12/40c B 50/25c

EASTER PARADE (Briggs 49) 70 days 400

A very attractive white that is early enough to hit the real early markets with a tall, well proportioned spikes. Grows much taller and makes better spikes than most the early whites. Very clean and without any color markings. It would pay to get a start on this for the early trade.

Price L 20c M 2/30c S 3/30c B 15/25c

ELIZABETH THE QUEEN (White 41) 85 days 566

One of the secrets of success with Elizabeth is plenty of water. Light mauve lavender with beautiful ruffling on large florets. Has a redish feather in the throat. Will win frequently at the shows and is a wonderful commercial. Elizabeth the Queen is parent of some excellent varieties.

Price L 12/1.00 M 12/60c S 12/35c B 50/25c

ESSA MARIE (Coutts 46) 85 days 542

An enchanting shade of light pink, almost a self color. Smooth and soft, but not a prize winner at the shows. It lacks the ability to grow tall spikes with lots open. We raise it mostly because it works so well in arrangements where you do not need tall spikes. You will like it even if you can't win at the shows with it.

Price L 12/80c M 12/60c S 12/40c B 50/25c

EUREKA (Fairweather 48) 90 days 500

A white Picardy is a good description of Eureka. Much on the order of Leading Lady, but much whiter in color. Has a little cream in the throat but not noticeably so. Grows much like Picardy with tall straight spikes, good germination and good propagation. Will hold 6 open florets about 5½" in size. Like all Picardy sports, it will show some reversions.

Price L 2/25c M 3/25c S 4/25c B 15/25c

EVANGELINE (Palmer 48) 92 days 540

Pink florets between light and pale shades with 8 to 10 florets open on tall straight spikes. Excellent formation on the spikes with tapering outlines. Florets are very large and several spikes will almost make a bouquet. Winner at the shows as you can see from the show reports.

Price L 40c M 25c S 2/25c B 10/25c

EXEMPLAR (Kreuger 44) 100 days 332

Exceptional performer for a 300 glad. 6 to 8 florets open on extra tall straight spikes. Florets are salmon colored, about the Picardy shade, nicely ruffled and well attached. Its chief fault is its lateness, so plant early for the shows. A good florist flower and very hard to beat on the show table.

Price L 12/\$1.00 M 12/70c S 12/50c B 25/25c

FAIR ANGEL (Hatch 42) 85 days 400

Not a world beater, but just another of the good cream whites, with a deeper shading of cream in the throat. Mostly a commercial. Opens well when cut in tight bud. Holds about 6 open on well proportioned spikes.

Price L 12/75c M 12/60c S 12/40c B 50/25c

FAY (Jack 45) 75 days 440

A very good early salmon pink, with a tall husky spike, well tapered. Holds six open and enough buds in color to serve well for floral work. Will fleck occasionally but this does not detract from its use for floral purposes. Has a cream throat which adds to its attractiveness. Probably not a winner on the show table but a good early for the market.

Price L 12/75c M 12/60c S 12/40c B 50/25c

FIREBRAND (Butt 44) 85 days 452

A medium shade of red with a fine white stripe down the lower petal. Tall husky spikes with 6 or more open, and five or six rosebuds showing color. Firebrand has one of the prettiest buds of any glad we grow, almost like a rosebud. Heathy, propagates well, good show flower and moves well on the wholesale market.

Price L 12/80c M 12/60c S 12/40c B 50/25c

FLORENCE NIGHTINGALE (Harris 47) 88 days 400

Six or more wide open florets of white, with a light touch of cream in the throat. Florets are nicely arranged on tall tapering spikes and run almost to the 500 size. Florets have a crisp appearance and stay good for several days after picking. Will crook once in a while but otherwise excellent.

Price L 2/30c M 3/25c S 6/25c B 20/25c

FLYING FORTRESS (Wilson 43) 93 days 586

If you like a giant spike, Flying Fortress will fill the bill. You may not like its smoky lavender florets with that bright red feather, but you will certainly like its 8 or more open florets, its tall straight spikes and its husky growth. Has won for most open and longest flowerhead.

Price L 12/1.00 M 12/60c S 12/40c B 25/25c

FRIENDSHIP (Fischer 49) 70 days 442

One of the better early blooming light pinks - ruffled, and very nice. Probably the best of the early blooming pinks. With its clear light pink color, its stylish ruffling, its ability to open 6-7 florets and medium tall spikes, it certainly has a place in the early field. A nice propagator too.

Price L 25c M 2/25c S 4/25c B 10/25c

FUSCHIA BELLE (Alemy 45) 80 days 462

A pretty shade in daylight, but under artificial light, this Fuchsia rose red shows up to its best advantage. Tall growing with about 6 open on nicely balanced spikes. If you like something a little on the unusual side, look at Fuchsia Belle.

Price L 2/25c B 15/25c

GENE (Farrington 49) 80 days 310

A 300 size light yellow that seems to be bigger than it actually is. Florets are frilled in a delightful manner. Quite early. Good for commercial cut flower work and a good show glad.

Price L 25s M 20c S 2/25c B 20/25c

GENERAL EISENHOWER (Salman 48) 85 days 542

A good show flower and a good commercial. Deep pink florets, large, well placed and with as many as 8 open. Spikes are tall, sturdy and well proportioned. Healthy grower and a good propagator.

Price L 2/25c M 3/25c S 6/25c B 25/25c

GENGHIS KAHN (Scheer 41) 80 days 440

Heavily ruffled florets of a medium shade of pink. Will hold up to 8 open on a 16-18 bud spike. Spike is tall and carries the florets well. Propagates well. Good show flower when well grown.

Price L 2/25c M 3/25c S 6/25c B 25/25c

GLAMIS (Palmer 40) 90 days 530

A light salmon color with pointed florets stylishly arranged on tall straight spikes. Holds about 6-7 open. Dependable, well liked commercially.

Price L 12/\$1.00 M 12/60c S 12/40c B 50/25c

GOLD CHEVRON (Beaton 50) 85 days 310

On the unusual side, in that its florets are lacinated and needle pointed. Florets are light yellow without any noticeable trace of another shade. up to 6-7 open. Florets are well placed on tall straight spikes. Very interesting if it will transmit its beautiful form to its seedlings.

Price L 50c M 35c S 20c B 10/50c

GOLDEN FLUTE (Hartman 50) 85 days 511

Five foot spikes with 28 inches of florescence. Quite an armful. Light yellow with a rose stripe on a medium deep yellow lip petal. Florets are extra heavy in texture, up to 7" in size. Ruffling, waving and fluting are all combined to add to an unusually attractive color combination. Will hold 6 to 7 open on a 16 to 18 bud spike with nice tapering spikes, tall and straight. Attachment is good, foliage tall, heavy and healthy. Bulbulet production is fair - germination on one year old bulbulets is good. Very hard to beat on the show table.

Price L \$2.00 M \$1.25 S 75c B 25c ea. 10/\$2.00

GORGEOUS DEB (Wilson 49) 85 days 530

One to keep your eye on. Salmon color with a golden throat with heavy substance, large size, and almost impossible to describe the heavily ruffling. Has won color championship a number of times which speaks for itself. Tall straight spikes, many open. Would recommend you get a start on Gorgeous. Deb as soon as you can.

Price L \$1.00 M 70c S 30c B 10/40c

GRACE ESTELLA (Youmans 45) 85 days 430

Ruffled pink and cream, blended so as to make an almost perfect pastel color. Could almost be called a light salmon, but we are more inclined to call it pink. Doesn't grow too tall or hold too many open, but its beautiful color more than makes up for this slight fault.

Price L 12/\$1.00 M 12/60c S 12/40c B 25/25c

GRATITUDE (Fischer 46) 75 days 424

Another variety that can produce extra nice spikes. Salmon orange florets, a sharp yellow throat, nice ruffling, on medium tall spikes gives not only a good commercial flower, but there is always the possibility of a good show spike. May misplace the first floret. Stands hot weather nicely.

Price L 12/\$1.00 M 12/60c B 25/25c

GRAY DAWN (Both 43) 95 days 486

A light gray sport of Jalna with an attractive unusual color. Seems to move well on the wholesale market - it certainly works well in arrangements. Propagates nicely. Holds 4 - 6 open on medium tall straight stems with a nice tapering to the tip. You will find a considerable variance between spikes as the color seems to change with the growing and weather conditions. We sell out on this one every year in spite of an increased plantings.

Price L 12/1.00 M 12/70c S 12/50c B 50/25c

GRAY SUMMIT (Butt 50) 75 days 486

Good gray's are hard to find and when you get a nice clean gray like this one, it pays to take it. Smooth and clean with a creamy white throat. Vigorous healthy, with 6 or more open on tall spikes. Propagates well. nealthy. A good addition to the gray class.

Price L 35c M 25c S 2/25c B 15/25c

GREAT LAKES (Kuhn 46) 70 days 476

A light blue that is clear and unflecked, shading lighter towards the throat. Tall spikes with 4-6 open, but may crook once in a while. Makes plenty of large bulblets which germinate very easily. One of the nicest blues we have. Color blends well with other colors and particularly with yellow.

Price L 25c M 2/30c S 4/25c B 15/25c

GRENADIER (Palmer 44) 85 days 416

Grenadier makes an imposing spike of light orange buff - very noticeable anywhere. Holds 6 to 8 open on tall strong spikes. Healthy, good propagator and well liked. When well grown, Grenadier will easily make the 500 class.

Price L 12/85c M 12/70c S 12/50c B 50/25c

GRETA GARBO (Pfitzer) 85 days 440

One of the better old timers - still in the running. A very light soft pink rose with a cream lip. Looks and is very clean, almost translucent. Consistent performer with six open. Spikes are tall and sturdy. Blends well with other shades. Well liked commercially and a good show flower. Unusual spike can be obtained with plenty of water and a little extra care.

Price L 12/80c M 12/60c S 12/40c B 50/25c

H. B. PITT (Both 41) 80 days 430

mon on the orange side with a cream throat. Stiff tall spikes of exhibition quality. Attractive.

Price L 12/\$1.00 M 12/60c

HAWKEYE RED (Heaton 44) 85 days 450

A medium shade of red on a husky spike. A sport of Vagabond Prince and it grows about the same way, except the spike is probably taller by 6 to 8 inches. Very good color and well liked commercially.

Price L 12/1.00 M 12/65c S 12/40c B 50/25c

HEART'S DESIRE (Fiedler 48) 80 days 540

One of the nicest pinks to come on the market in a long time. Medium to light pink in color with heavily ruffled florets, 6 to 8 open on tall straight spikes. Exceptionally clean, no flecking. Spikes are nicely tapered. It is hard to describe its cleanness, its freshness-you will like it without question. Winner on the show tables, an excellent commercial.

Price L 30c M 25c S 2/30c B 15/50c

HENRI de GREEVE (K&M 49) 95 days 423

Another one of those glads that stand out. Salmon orange on which is a very noticeable ochre blotch, overlaid with a scarlet feather. Quite an attractive combination. Holds 6 to 8 open on a 20 bud flowerhead with nice proportions. Heavy texture, good attachment, good propagator and healthy grower.

Price L 50c M 35c S 25c B 5/25c

HUGH PRICE (Both 48) 80 days 416

An attractive shade of bright buff, with a salmon tone, blended into a yellow throat. Round florets, ruffled and ribbed, with 8 or more open on nice well proportioned spikes. Its bright shining clean color is its main attraction.

Price L 40c M 30c S 2/30c B 10/25c

HUNTRESS (Jack 45) 75 days 466

A tall straight spiked lavender that is very early. Will hold six open and most of the rest of the 20 buds will show color. Propagates well and fills in as an early lavender in the markets. Inclined to fleck easily. More ruffled than Minuet but not as clean and harmonious color combination.

Price L 12/80c M 12/60c S 12/40c B 50/25c

HURRICANE (Evans 42) 78 days 424

A floret of bittersweet orange with a cream throat, overlaid with a red feather and medium tall wiry stems, plus earliness, gives us a variety that seems to move very well on the early market. Holds five to six open. Excellent color for basket work. One of the first to bloom for us each year. Good propagator, for every bulbet seems to sprout.

Price L 12/75c M 12/60c S 12/40c B 50/25c

INTRUDER (Graff 44) 90 days 536

One of those glads that a single spike is almost a bouquet in itself. Very large wide open florets of a light scarlet red with a touch of white to lighten the throat. Holds 6 to 8 open on a 20 bud spike that is tall and well proportioned. Propagates nicely. Good commercial and fair exhibition flower.

Price L 12/\$1.00 M 12/65c B 50/25c

IVY ROBERTSON (Barrett 43) 88 days 440

A pretty shade of pink with a yellow throat, the throat seeming to dominate the floret. Tall, many open, straight spikes. Will win for tallest and for most open. Very useful for an arrangement demanding lots of spread. Does not seem to be properly classified as a pink, nor does it really belong in the yellows, but it is nice and you will like it.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

JAY'S JOY (Youman 43) 88 days 422

A joy indeed, tall husky spikes, with a long flower head of a medium shade of orange, six to eight open at one time. Probably one of the strongest growers we have in the orange class. Florets have an inconspicuous white center with a light yellow marking down the center rib. Flecks occasionally. Well liked commercially, and a hard one to beat on the show table.

Price L 12/75c M 12/60c B 50/25c

JUNE DAY (Roberts 46) 58 days 441

Pink with twin blotches of cherry red. Inclined to fleck. Its chief value is for early market use, and if you grow for that purpose, be sure to try June Day. Will bloom in 55 to 60 days from an early planting. Holds five or six open on a good stem. Propogates well. For an early flower, be sure to try June Day.

Price L 2/30c M 3/30c S 4/25c B 20/25c

JUNIOR MISS (Canine 44) 80 days 430

A deep salmon pink with lighter mid ribs and a small cream blotch. Will hold 6 or more open on tall straight spikes. Good commercial. Propogates easily.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

KAWATIRI (Pupich 47) 85 days 516

Seems to grow tall spikes but with a tendency to crook some of them. When you get a straight one, with it six or more florets open, you have a competitor at any show. Creamy buff florets with a yellow throat, with the edges of the petals tinged pink - very attractive and interesting. Buds are of golden buff color with a pink cast to them. Florets are frilled and of good texture. Worth growing if you can stand for the crooking.

Price L 2/25c M 3/25c S 6/25c B 20/25c

KENWOOD (Lins 43) 80 days 452

Christmas red, a monotone color with no markings, but very attractive. Will hold 5 or more florets somewhat plain, on tall wiry slender spikes. Very appealing and a good propagator.

Price L 12/\$1.00 M 12/60c B 25/25c

KING ALFRED (Hobbs 45) 80 days 532

An extra nice glad with a good performance record for us. Orange salmon in color with an attractive but not too noticeable cream blotch. Holds 6 open on a 20 bud spike, one that is tall and straight and husky enough to support the large flower head. Distinctive and worth growing. Good show and commercial glad.

Price L 3/30c M 3/25c S 6/25c B 25/25c

KING CLICK (Wilson 41) 90 days 552

King of its class this beautiful scarlet red. Every spike is tall, straight and sturdy with the florets spaced and faced perfectly. Holds 6 to 8 open and has from 18 to 20 buds. It is almost impossible to hold a dozen spikes in one hand, so husky does it grow. Here is one that makes grand exhibition spikes, to say nothing of well liked commercial blooms. Recommended.

Price L 12/1.00 M 12/65c S 12/40c B 50/25c

KING DAVID (Carlson 51) 80 days 570

Probably the best purple to date. A deep purple with a heavy midrib with the florets recurved, winged ruffled and fluted. Each petal has a narrow silvery picotee edging. Will hold up to 10 5½ florets on a 24 bud tall straight spike. A satin like texture adds immensely to the overall beauty of King David. By all means try it.

Price L \$3.00 M \$2.50 S \$2.00 B 30c

KING LEAR (Palmer 38) 75 days 570

In spite of its age, King Lear is still a nice glad. Clear deep reddish purple with a silver line on the edge of the petals. Tall long wiry stems that make up beautifully for basket work. The first floret should be almost open before you cut. Given plenty of water, you can raise some grand spikes.

Price L 12/75c M 12/60c S 12/45c B 100/25c

KITTYHAWK, (Both 48) 85 days 366

Up to 10 medium sized florets open on a nicely balanced spike. Florets being well arranged and well attached. Delicate lavender in color, with a light peppering in the throat, giving a bluish cast to the floret.

Price L 30c M 20c S 2/20c B 10/25c

LADRONE (Palmer 47) 90 days 433

Except as to color, reminds one very much of Beacon. Light rose salmon, with a scarlet at the tips of the petals and a very attractive light yellow blotch, quite prominent. Holds 6 to 8 open with 6 to 8 in color on about a 20 bud spike. Spikes are tapered and well proportioned. Good propagator. Very showy and well liked commercially.

Price L 2/25c M 3/25c S 5/25c B 25/25c

LADY JANE (Lake 41) 85 days 406

Capable of making some extra nice spikes. Cream, almost on the yellow side with light yellow lip petals. Lightly ruffled with 6 to 8 large well placed florets open on tall husky spikes. Good for show and commercial work.

Price L 12/75c M 12/60c S 12/40c B 50/25c

LADY MARIAN (White 48) 85 days 460

Pinkish lavender rose is probably the best color description. Excellent spikes, tall and stately, with 8 open. Attachment is good, placement good, overall balance is good. A little better throat mark would add to its attractiveness, but regardless of that, it will win on the show table and will make a good commercial.

Price L 35c M 25c S 2/25c B 20/25c

LANCASTER (Palmer 44) 85 days 470

A silky textured purple with six open on tall straight spikes. One of the best purples to date. A shade or so darker than King Lear, an entirely different spike formation, and no silvery edging. Much better attachment. If you like the dark colors, by all means try Lancaster.

Price L 3/30c M 3/25c S 5/25c B 25/25c

LAVENDER DREAM (Goede 48) 85 days 466

A clean light lavender with a creamy throat. Florets are wide open, about 6 open, on tall stems. Unless planted deeply, has a tendency to fall over easily. Exceptionally clean color and will make a good commercial and a good show flower.

Price L 2/25c M 3/25c S 5/25c B 25/25c

LAVENDER LACE (Fischer 50) 85 days 466

An Elizabeth the Queen seedling and somewhat similar. Has a waxy texture that Elizabeth seems to lack. Nicely ruffled holding about 6 open on good spikes. Good propagator and quite interesting.

Price L 50c M 35c S 25c B 8/25c

LAVENDER PRINCE (La Salle 44) 90 days 466

Mauve lavender with darker lines in the throat. Will hold about 6 open on tall husky spikes. Attractive and well liked everywhere.

Price L 3/30c M 3/25c S 5/25c B 25/25c

LEADING LADY (Johnson 42) 87 days 506

A very light cream, almost white, shading deeper in the throat. A small consistent performer and one of the prize winners of all times. Will hold 6 to 8 open on tall straight spikes. Plenty of buds in color to make a well balanced spike. Opened in a cool room, Leading Lady seems to take on a sheen that adds much to its attractiveness. One of the leading ten.

Price L 12/85c M 12/60c S 12/40c B 50/25c

LILA WALLACE (Fairchild 47) 80 days 462

A lovely little glad that reminds one of Burma. Deep rose red in color with nicely ruffled florets. Holds 7-8 open, informal placement on medium tall slender spikes. Healthy and a good increaser.

Price L 75c M 50c S 25c B 5/25c

MADELINE HEFTY (Woods 50) 85 days 562

Rose lavender, but to our mind, more the lavender, shading to deep rose at the edges and with a deep rose marking on the lip. Will hold about 8 open with about the same number showing color. Substance, attachment and placement is good. Tall willowy stems heavy enough to support the flowerhead. Seems to propagate well.

Price L \$1.00 M 75c S 50c B 2/25c

MAID OF ORLEANS (Pfitzer 32) 85 days 400

Milky white with a creamy colored throat. Clean in every way with 6 or more large florets open on tall straight spikes. Good commercial.

Price L 12/85c M 12/60c B 50/25c

MARGARET BEATON (Twomey 37) 85 days 501

The scarlet blotch in the throat of Margaret Beaton seems to enhance its snowy whiteness. Tall straight spikes, about 6 open with a fine balance on the whole spike. Good propagator, good show and commercial flower.

Price L 12/85c M 12/60c S 12/40c B 50/25c

MARGARET WOOD (Marshall 47) 80 days 570

Very large wide open florets of a rose purple wine color, with a lighter shading in the throat. Holds 6 to 8 open on tall strong stems, nicely proportioned. Makes up well for decorative work. Good propagator.

Price L 2/30c M 3/25c S 5/25c B 25/25c

MARION PEARL (Benedict 42) 85 days 532

A light salmon shading lighter in the throat. Has 6 to 8 large florets open on a medium to tall spike. Seems to grow every spike straight. Has stiff competition at the shows but will rate frequently.

Price L 12/75c M 12/60c S 12/45c B 50/25c

MEG (Pruitt 49) 85 days 412

A ruffled clear yellow with outstanding performance this year. Spikes are tall, straight, with 6-8 florets open. Spike is nicely balanced. A good yellow and you will see more and more of it as it becomes better distributed.

Price L 2/25c M 3/25c S 6/25c B 25/25c

MENELIK (Salmon 50) 90 days 554

A good black red. A rosy tinge, blending deeper at the edge of the base of the petals takes away the monotony of a self color and brightens it up considerably. Every spike seems to come tall and straight. Will misplace a floret once in a while.

Price \$3.00 any size bulb, B 3/\$1.00

MERRY MAID (Roberts 49) 70 days 442

Earliness, plus a good color, brings Merry Maid to the front. Ruffled pink and white, perhaps even a deep pink, with our field notes for two years reading "very pretty". Holds 6-7 open and a medium tall spike. Good propagator. Early.

Price L 50c M 35c S 25c B 3/25c

MIGHTY MONARCH (Butt 46) 88 days 552

Monarch of the medium red class. Its velvety texture medium red florets with 8 or more open on tall husky straight spikes puts it in a class by itself. Will have plenty of buds open to make a balanced spike. Will sunburn in hot weather, but otherwise, its growth, germination propagation, everything about it is nice.

Price L 2/25c M 4/25c S 5/25c B 20/25c

MINUET (Coleman 22) 100 days 466

Late growing, and old timer, but when well grown a contender still. Opens five to six well placed florets on medium tall spikes. We keep it mostly for hybridizing and have several seedlings coming that will be worth looking at.

Price L 12/\$1.00 M 12/60c S 12/40c B 25/25c

MISS WISCONSIN (Kreuger 43) 90 days 460

Exceptionally clean in color this year without a trace of flecking. A light rose pink that catches your eye from anywhere in the garden. Holds 6 to 8 open, 6 to 8 buds in color, with facing, attachment and growth very good.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

MOUNTAIN GEM (Requa 46) 80 days 436

Not a worldbeater - just a very attractive scarlet red with an occasional light edging on the petals. Color is very attractive and it is hard to beat for an arrangement calling for lots of sparkle. Attachment, spacing, facing, and propagation good. Spike is medium tall and tapering. Holds 5-6 open on a 16-18 bud spike with enough buds in color to balance the spike. Well like by the florists.

Price L 35c M 25c S 2/25c B 20/25c

MORNING STAR (Van Prooyen 48) 85 days 500

Morning Star seems to have been carved from a piece of wax with its attractive wide open flared floret. The heavy midrib on the three outside petals also adds to give one the same impression. There is just a trace of cream in the throat. Holds 6 open on a 16 to 18 bud spike. Spike is tall, husky and carries the large flowerhead nicely. Has some reversion tendency towards Picardy.

Price L 35c M 25c S 2/25c B 20/25c

MRS. R. G. ERREY (Errey 48) 85 days 554

Much bigger and better than Black Opal. Holds 6 to 8 large florets of dark red on good spikes. Tall, well proportioned flower head with lots of buds. Florets are round and wide open. Its main fault is a tendency to crook - otherwise very good.

Price L 25c M 2/25c S 3/25c B 15/25c

MYRNA FAY (Lines 46) 75 days 466

Mostly a commercial although once in a while it will win on the show table. Orchid lavender, early, one that will open well when cut in tight bud. Holds 6 to 8 open on tall tapering spikes.

Price L 2/35c M 2/25c S 5/25c B 25/25c

MYRNA (Pruitt 39)**80 days 400**

Probably the most variable performer we grow. We have tried segregating the better blooming bulbs with no benefits. When you get a good spike, it is really nice. Heavily ruffled ivory white, with an ivory cast to the buds before they open, but turning a clear white after opening. Can hold 6 or more open on exceptionally nice spikes, but not every bulb will do that.

Price L 12/\$1.00 M 12/60c S 12/40c B 25/25c**NEW YORK (Salman 51)****80 days 562**

I would be more inclined to class as deep red rather than deep rose, but regardless, it is one of the newer ones to keep your eye on. Deep carmine red, somewhat deeper than blood red. Holds up to 8 open on fine tall spikes, husky and well proportioned. Each spike is almost a show in itself. Excellent show flower and a coming commercial. We had some trouble this year with some petals being bent back and failing to open fully, but regardless of that, it is a "comer". Do not confuse with New Yorker.

Price L 50c M 35c S 20c B 10/50c**NEW YORKER (Graff 50)****85 days 440**

Too bad we had two nice varieties come out the same time with almost the same name. New Yorker is an enchanting shade of pink with a somewhat lighter midrib. There is a throat mark with some light peppering of red deep in the throat. Holds 6-8 open on tall wiry stems, plenty heavy enough to support its big flower head. Good propagator. Florets are ruffled and well attached.

Price L \$2.00 M \$1.50 S \$1.00 B 3/50c**OCTOBER SUNSHINE (Quackenbush 47)****85 days 420**

Hard to beat for tall arrangements with its beautiful light orange florets blending well with fall colors. The orange shades to a yellow throat, giving a harmonious combination. Spikes are tall and straight. Six open florets with the rest of the spike well balanced. Have had some trouble with the lower floret misplacing, otherwise excellent.

Price L 2/35c M 3/25c S 4/25c B 25/25c**OGARITA (Wilson 42)****90 days 532**

For consistent growing of tall husky spikes, it is hard to find a glad that will do better than Ogarita. Florets are slightly fluted, with a crispness that is hard to beat. Rose salmon in color, shading to a gold throat. Spike after spike up to six feet tall, almost impossible to hold a dozen spikes in one hand. This would be a good variety to raise for floor baskets or any work requiring long spikes.

Price L 12/90 M 12/70c S 12/50c B 50/25c**OKLAHOMA (Wilson 45)****90 days 386**

If you like a nicely ruffled wide open floret of a grayish tone, look at Oklahoma. A very inconspicuous throat of pink lilac blends into the gray edges and makes an exceptionally attractive spike. Attachment, texture, placement, and overall appearance is excellent. A nice smokie, and one that fits well into arrangements.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c**OPECHEE (Sonafrank 49)****90 days 486**

Gives the impression of smoky old rose color, but it has a lavender overlay and a carmine feather on the lower floret. Very attractive to the smokie fans. Florets are wide open on tall straight spikes. Holds about 6 open - excellent attachment and placement.

Price L 60c M 40c S 25c B 10/60c

ORANGE GOLD (Marshall 45) 80 days 422

A natural looking shade of orange blending gradually to a yellow throat. An irresistible attraction in the garden. Spikes are tall, plants husky with dark green foliage. Holds about 5 or 6 open. The only serious fault is its short flowerhead.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

OREGON GOLD (Majeski 41) 110 days 410

Very late bloomer, but it is worth seeing when it does bloom. A clean crisp light yellow, almost translucent with the sun behind it. Enough ruffling to take away any monotony in appearance. Holds 6 to 8 open on tall straight spikes. Opens well when cut in tight bud.

Price L 12/80c M 12/60c S 12/40c B 50/25c

ORIENTAL PEARL (Carlson 46) 85 days 506

Given plenty of water, Oriental Pearl will stretch enough to make an interesting spike. Its 7" giant clear cream florets are wide open & rather closely spaced. Holds 4 to 6 open and straight spikes, but needs plenty of water to produce quality bloom. Propogates well.

Price L 12/75c M 12/60c S 12/45c B 50/25c

OSTRICH FEATHERS (Pfitzer 50) 85 days 540

Decorative florets of light peach rose with unusual shape. One of the few of the large ones that is lacinated enough to be attractive. Add pointed petals and a medium amount of ruffling, about 6 open on tall straight spikes, and you can see why we like it. Should be of unusual interest to hybridizers.

Price L 35c M 25c S 2/25c B 10/25c

PACTOLUS (K&M 47) 80 days 417

A buff color on the yellow side, with a very startling scarlet blotch. An attractive color combination to those who like contrasts. Handles well in bouquet and basket work and the florists like it. Holds about 6 open on medium tall husky and straight spikes. Propogates well and performs well in every way.

Price L 3/30c M 3/25c S 5/25c B 25/25c

PARTHENIA (Hitchcock 49) 80 days 566

Capable of making an extremely large spike, with 6 to 8 open florets of deep lavender lightly frilled and lightly ruffled. Spikes are usually tall and straight but you will get once with a crook once in a while. Color could be better, but it makes up well in basket or bouquet work.

Price L 25c M 2/30c S 3/25c B 15/25c

PATROL (Palmer 46) 77 days 416

Clear apricot with a yellow throat, clean cut and attractive. Add its ability to hold up to 10 open on tall nicely proportioned spikes and you can easily raise show winners. Good commercial.

Price L 30c M 20c S 2/20c B 15/25c

PEGGY (West 46) 80 days 366

If you like a cool shade of lavender, Peggy is the one to look at. Clean, self color, with no flecking. Holds 6 open on tall limber spikes. A 300 size, but give the impression of being bigger. Florets are rounded and wide open. We have been on the "Band Wagon" for Peggy for several years.

Price L 35c M 25c S 20c B 3/25c

PENELOPE (Dean 48) 75 days 466

Penelope is one of those glads that seems to escape notice, but which is still exceedingly nice. A shade of mauve or lavender that is rare in glads. Holds up to 6 wide open florets on tall straight slender spikes. There is a white throat with a slight peppering of mauve in the throat. Attractive and well liked by the florists.

Price L 40c M 30c S 20c B 10/25c

PERDITA (Grout 48) 90 days 313

One of the smaller sized glads that gives an exceptional performance, in general, all around good. Deep yellow with scarlet throat markings, brilliant in its overall effect. Holds 6 to 8 open on tall stems. Nicely balanced spikes. Has some tendency to crook and will misplace florets once in a while. In spite of this, it is good.

Price L 75c M 50c S 25c B 3/25c

PERFUME (Brauer 41) 301

Short growing with four or five round frilled florets of white on straight spikes. Has a small purple blotch which rather detracts from its beauty. Definitely has a fragrance and for hybridizing is very good if you are aiming for fragrance.

Price L 2/25c M 4/25c S 6/25c B 25/25c

PERSIAN RUG (Roberts 50) 90 days 486

Everybody exclaimed over Persian Rug when we showed it at the various shows. If you are a smokie fan, be sure you see this one. Plum rose in color, with a large, prominent and extremely attractive cream throat. We liked it so much last year that we stocked up heavily on it for this year, and are sorry now that we did not stock up even heavier. Very unusual and very pleasing - one for the smokie lover. Tall strong spikes, with 6 open. Will misplace florets once in while.

Price L \$1.50 M \$1.00 S 60c B 3/25c

PICARDY (Palmer 31) 90 days 530

Clear soft salmon color, with a flesh colored throat, overlaid with a rose feather. Holds six open on tall straight stems. Florets are large and well placed. Grows well, propagates well - our strain is healthy. Can be outstanding when well grown.

Price L 12/75c M 12/60c S 12/45c B 50/25c

POET'S DREAM (Fischer 46) 85 days 366

Five to six florets of a clear bright lavender, set precisely on tall straight stems. Blend the lavender into a creamy white throat, in wide open round florets and you have an ideal commercial. We like it very much.

Price L 2/25c M 3/25c S 6/25c B 25/25c

POLYNESIA (K&M 50) 90 days 430

An enchanting shade of salmon with ability to hold 8 or more open on well balanced tall spikes gives us a good one in Polynesia. Florets are round, well placed, good attachment and of heavy texture. This is one you should have if you want a winner at the shows. Good propagator.

Price L \$1.00 M 75c S 50c B 3/25c

PROSPERITY (Silvia 47) 85 days 540

Once again, Prosperity has proven an excellent glad. Its wide open, nicely ruffled florets are closely attached to tall straight spikes. The color is an attractive light rose salmon which shades lighter in the throat. Holds six open with a well proportioned spike. Propagates very well. Recommended.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

QUIBERON (Errey 49) 85 days 420

Deep buff with an orange tinge, and a creamy yellow throat. One of those that clicks the first time you see it and one that by its consistent performance stays well in the race. Will hold up to 10 open on tall nicely proportioned and balanced spikes. If you like the buff or apricot color, by all means look at Quiberon.

Price L 75c M 50c S 30c B 4/25c

RAVEL (K&M 47) 77 days 477

Violet blue in a medium shade with a red blotch in the throat that is quite prominent. Interesting in combination with other colors. Frequent winner at the shows. Holds up to six open on tall strong spikes. Attractive.

Price L 2/25c M 3/25c S 6/25c B 25/25c

RED CHARM (Butt 39) 85 days 452

An exhibition red and a show red with an enviable record. Six to eight large florets open on a 20 bud spike that is tall and husky, exceedingly well proportioned. A medium shade of red, shading darker in the throat. Propagates easily. Bulbs are inclined to sprout in storage. One of the leaders and one you should have by all means.

Price L 12/\$1.00 M 12/60c S 12/40c B 100/25c

RED CHERRY (Roberts 46) 70 days 436

Light cherry red with a little darker shading in the throat. Holds 6 to 8 wide round florets open on tall straight spikes, well proportioned. Very attractive and much earlier than Red Charm. Well worth growing, particularly for the early market trade. Recommended.

Price L 25c M 2/25c S 4/25c B 25/25c

RED WING (Wright 48) 85 days 436

Put RED WING down on your list as one of those "Must Have". A radiant scarlet red, exceptionally nice color, darkening a little on the lower petals. Florets are slightly recurved with a light ruffling. Will hold eight open on a 20-24 bud spike. Seems to grow tall and straight, every spike. Spike proportions are good, with excellent attachment and placement. A winner at the shows and a coming commercial.

Price L 50c M 35c S 25c B 6/25c

RHETT BUTLER (Kuhn) 336

A small sized brilliant orange scarlet with something that makes you say "Oh! how pretty" Makes a nice tall spike with 6 to 8 open. Good propagator. An all around good one and you will be sure to like it.

Price L 2/30c M 3/30c B 10/25c

RIALGAR (Errey 48) 85 days 516

Unusually attractive with its rich glowing apricot color, shading to a chrome yellow in the throat. Will hold 8 or more open on tall, nicely proportioned spikes. Florets are ruffled, leathery in texture, and very pretty, with a conspicuous yellow veining. We like it very much.

Price L 25c M 2/25c S 5/25c B 15/25c

RIO RITA (Lins 41) 95 days 523

A very useable color in the fall with its orange florets and their scarlet center. Will hold plenty open when well grown. Florets are well arranged on nicely proportioned spikes. Good show and commercial.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

ROMAN GOLD (Canine 40) 85 days 322

We like the shade of Roman Gold very much. A bright orange with a yellow throat adding a brightness to the floret. Makes what would be called a normal spike for a 300 glad, not too large, but plenty big enough to be useful. Very attractive color.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

ROMANY (Youmans 45) 80 days 481

A smokie-attractively colored a strawberry red with a bluish red blotch. Performs well with about 6 open on medium tall spikes. Seems to be well liked.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

ROSA VAN LIMA (Pfitzer 40) 80 days 460

Light rose, shading somewhat darker in the throat. Tall husky spikes with 6 open 6 in color. In the early class and well liked commercially, as its color blends well. Dependable at all times.

Price L 12/75c M 12/60c S 12/40c B 50/25c

ROSEA (Errey 40) 85 days 560

A tall vigorous growing rose pink shading to a deeper rose in the throat. Will hold 7 or 8 open on well proportioned spikes. Moves very well on the wholesale market.

Price L 3/30c M 3/25c

ROSE CHARM (Fischer 48) 65 days 360

Enchanting is the best word for Rose Charm. Well named for its rose with a cream throat adds a charm seldom found in glads. Holds 5 to 6 open florets on medium tall wiry stems. Seems to work exceptionally well in basket and arrangement work. Attachment, color, spike proportions, and propagation very good. Quite early. Price is very reasonable.

Price L 2/25c M 4/25c S 6/25c B 20/25c

ROYAL GARNET (Haring 44) 80 days 454

One of the nicer dark reds with a touch of fire in the throat to add to its attractiveness. Medium tall spikes with a good overall appearance. Given plenty of water, you will get some fine spikes.

Price L 12/85c M 12/65c S 12/40c B 50/25c

SALMAN'S GLORY (Salman 47) 80 days 507

An all around good flower - a very attractive light cream with a strong yellow base and a very attractive carmine blotch. Florets are large, smooth petaled and wide open. Will hold about six open on an eighteen bud spike. Spike is tall, husky, and easily supports the large flower head. Will produce nice spikes for anybody.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

SEASHELL (Roberts 49) 85 days 540

Unusual in many respects. A texture like satin with a substance like leather. A very unusual combination. A beautiful shade of shell pink on a white petal. Lightly ruffled, 6 open on tall husky spikes. Outside of flecking once in a while very satisfactory. Should make agood commercial.

Price L 40c M 25c S 2/25c B 10/25c

SENSATION (Marshall 39) 105 days 560

Each year we wonder why we keep Sensation but then when we see the wonderful spikes we get, after most everything else is through blooming, we get our answer. Large tall spikes filled with florets of deep pink. A light cream center adds a touch of color. Holds 6 to 8 open easily. Moves readily on the commercial market where top quality spikes are in demand late in the season.

Price L 2/25c M 3/25c B 25/25c

SHERWOOD (Pruitt 48) 80 days . 570

A color like King Lear but without the silvery edging and with much improved growing habits. Holds six open on tall strong stems with excellent attachment. Florets are lightly ruffled.

Price L 25c M 20c S 2/25c B 10/20c

SIBONEY (Allen 48) 90 days 566

A medium shade of clear lavender, blended into a deeper color in the throat. Large florets with lots of ruffling. Good attachment and excellent substance. Attachment, facing and placement good. Spikes tall and husky.

Price L 35c M 25c S 20c B 15/25c

SILENTIUM (Pfitzer 41) 80 days 401

A consistent producer of nice spikes. Florets are plain white with a red feather in the throat. Will hold six open, six in color and tall straight spikes. Attractive color combination, dependable, good show flower and good commercial. Propagates well.

Price L 12/85c M 12/60c S 12/40c B 50/25c

SILVER WINGS (Ritsema 44) 85 days 500

A picardy sport of pure white. Large ruffled florets with a waxy texture adding immensely to its attractive appearance. A big winner at the shows and an excellent commercial. Like most of the Picardy sports, you will have a reversion once in a while, otherwise excellent. Will grow like Picardy, 6 open, 6 in color on tall well proportioned spikes.

Price L 12/\$1.00 M 12/70c S 12/50c B 50/25c

SINCERITY (Errey 48) 85 days 407

Lots of contrast in the creamy florets with the scarlet blotch. The lower petals shade to a darker shade of cream. Will hold 6 to 8 open on tall, nicely proportioned spikes. Texture good, spacing and facing also good.

Price L 2/30c M 2/20c S 5/25c B 20/25c

SNOWFLAKE (Pfitzer 48) 100 days 500

Rather late growing but a beautiful white, nicely ruffled, with 6 to 8 florets open on tall good spikes. We are more inclined to call this a 400 size as only a few will reach the 500 size. A nice one and it fills in nicely in the late part of the season.

Price L 25c M 2/30c S 4/30c B 15/25c

SNOW FLURY (Clark 48) 90 days 400

A nice white, pure and clean. Buds are tinted ivory but open up white. There is a touch of cream in the throat. 6 open florets are well attached, tight to the stem. Spike is of the usual Picardy type and there is some tendency to show a reversion in some florets towards Picardy. A good show and a good commercial flower.

Price L 2/25c M 3/25c S 5/25c B 50/25c

SNOW MAID (Cave 48) 85 days 400

Snow Maid performed exceptionally well last year, holding up to 8 open on tall straight spikes. Pure white in color, with excellent placement, healthy foliage. Opens to the tip, making it useful for floral work. Stands heat well. Well worth investigating.

Price L 2/35c M 2/25c S 5/25c B 20/25c

SNOW PRINCESS (Pfitzer 39) 80 days 400

A clean pure white, with 5 to 7 large round wide open florets on strong straight spikes. One of the old standby whites. Good commercially as it opens well when cut tight. When given a little extra care, can make a winner at the shows.

Price L 12/75c M 12/60c S 12/40c B 50/25c

SNOWSHEEN (Snyder 42) 75 days 300

One of the nicest whites we grow. Immaculate in color, with a sheen that is long remembered. Tall spikes, about 5 to 6 open with excellent proportion. Just one of those glads that seems to work well any where, show or commercial. Exceptionally clean cut.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

SOUTH SEAS (Wilson 47) 90 days 491

An odd shade of dark gray, flecked lighter at times, with the only touch of color being a scarlet throat marking. A good show variety and seems to propagate well, blooming from bulblets at times.

Price L 50c M 35c S 25c B 10/40c

SPARKS (Glass 47) 95 days 507

In our opinion, this is closer to yellow than to cream, but regardless of where classified, it is an eye-catcher. Dark cream or light yellow with a prominent orange scarlet feather, extending down the petals quite noticeably. Florts (5 to 7 open) are triangular shaped with good placement and good attachment. Medium tall spike. One of the most attractive of the eye-catchers that we grow.

Price L 2/25c M 3/25c S 4/25c B 25/25c

SPIC AND SPAN (Carlson 46) 80 days 442

With 8 to 10 salmon pink florets open on tall straight spikes, we have a real winner. Add good placement and attachment, ruffling and good substance, good propagation, and good performance, - all this gives us one of the best in the market today. Winner of many top honors at the shows and a good commercial.

Price L 2/25c M 3/25c S 4/25c B 15/25c

SPITFIRE (Evans 42) 80 days 432

A rosy toned salmon, almost bordering on scarlet, is about as close as we can come to describe the color. It is attractive and its white throat with a scarlet salmon colored feather adds a splendid finishing touch. Holds up to 8 open on tall well proportioned spikes. Good all around.

Price L 2/25c M 3/25c S 4/25c B 25/25c

SPOTLIGHT (Palmer 44) 80 days 413

The small bright scarlet blotch on a floret of an attractive clear shade of medium yellow puts the spotlight on Spotlight. A very attractive color combination. Holds six open on tall nicely shaped straight spikes with plenty of buds to balance the spike. Good propagator, good show flower and an excellent commercial. Recommended if you want an all around attractive flower.

Price L 12/\$1.00 M 12/60c S 12/40c B 50/25c

STRATHNAVER (Peattie 47) 85 days 500

To get good spike of Strathnaver, you have to handle it with "kid gloves". A beautiful white, with wide open florets extremely large (up to 7" or more) with 8 or 9 open florets. Attachment is not good and the least jar will cause the open florets to fall off. If crossed with something with good attachment, it might be possible to get increased size and good attachment. Spike is well balanced and tall. Texture is soft.

Price L 35c M 25c S 2/25c B 5/25c

SUMMER GAL (Zimmer 44) 80 days 542

A large beautiful lightly ruffled geranium pink with 7 to 8 open on tall husky spikes. A rose feather adds the needed touch of color. A good grower with both show and commercial possibilities.

Price L 2/25c M 3/25c B 25/25c

SUMMER SNOW (Fischer 49)) 85 days 300

A winner in the 300 class. Tall growing white with florets of almost pure white, even to the stamens. Gives a lot of florescence for a small glad. Placement, spacing and proportions excellent. Cut tight, it opens well inside. Seems to have everything needed for a good show and commercial flower.

Price L 2/25c M 3/25c S 5/25c B 25/25c

SUNLIGHT (Spiller 46) 85 days 416

Large, slightly ruffled florets of a light golden buff makes a pretty and attractive addition to our garden. A fairly prominent reddish mark deep in the throat takes away any plainness. Not one to win frequently at the shows, but one that works exceptionally well in work around home. Have seen some beautiful arrangements of Sunlight.

Price L 2/35c M 2/25c S 3/25c B 20/25c

SUNSPOT (Roberts 45) 80 days 417

An enchanting shade of light apricot buff with a harmonious rose colored spot in the throat - add 8 to 10 open - tall straight spikes - excellent proportions - good propogation - all this equals a prize winner and indeed it is. One of the best of the show flowers and exceedingly good as a commercial.

Price L 25c M 2/25c S 4/25c B 25/25c

SUPREME BEAUTY (Bastian 47) 80 days 432

A beauty in dark salmon, pink and a creamy yellow throat. Opens up to 8 large ruffled florets on a 20 bud spike that is tall and straight. Enough buds in color to balance nicely. Good propogator. Looks good all around.

Price L 25c M 2/25c S 4/25c B 15/25c

TARAWA (Palmer 46) 80 days 436

With eight small triangular scarlet florets open on a 20 bud spike, we have the makings of a good one. Add ruffling, and a cream line in the throat and it improves. Spikes are straight and of good proportions. All told, a nice glad with fair bulblet production but good germination.

Price L 2/25c M 4/25c S 6/25c B 25/25c

THEMESONG (Kelin 47) 88 days 570

An unusual combination of color - a mild purple with a cyclamen purple blotch. Distinctive and quite attractive. Can hold up to 8 open on a 16-18 bud spike, one that is tall and straight. Excellent placement and facing. Attachment good.

Price L 2/25c M 3/25c S 6/25c B 25/25c

TITAN (Palmer 39) 85 days 532

For such a good all around flower, we do not see too much of Titan. Deep salmon pink with 6 to 8 open on tall strong spikes. Placement is good, facing is good, balance and proportions excellent. One of the best parents we have for hybridizing work.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

TIVOLI (K&M 47) 90 days 461

One of the best of the Holland introductions - it is a beautiful shade of light rose, shading lighter in the throat. When well grown - a real beauty. Will hold 6 to 8 wide open florets usually with good placement and facing. The balance of the spike is well proportioned and nicely balanced. Excellent for both show and commercial.

Price L 12/\$1.00 M 12/80c S 12/60c B 50/25c

TUT'S BOTH (Both 43) 80 days 422

A deep pastel shade of orange, about 6 open an husky well proportioned spikes, Very attractive, excellent for arrangement work and has show possibilities. Cut when the first bud shows color for it burns in the sunshine. Opens well when cut tight.

Price L 12/\$1.00 M 12/65c B 50/25c
VAGABOND PRINCE (Palmer 34) 80 days 391

A well grown Vagabond Prince is a delight to anyone's eye. Mahogany brown, set off with a delightful flame color blotch, 6 to 8 open and medium tall spikes. Stiff competition at the shows. Well liked commercially. Attractive all around and one you should have.

Price L 12/\$1.00 M 12/60c S 12/40c B 50/25c
VELVET MANTLE (Fischer 49) 85 days 454

Rich maroon in a royal velvet petal, with that silky sheen which velvet imparts to anything. Florets (6 open at one time) are well placed on long tall spikes. Healthy, producing lots of bulblets. Well liked by the floral trade.

Price L 25c M 2/25c S 4/25c B 25/25c
VENIDA (Milo 47) 90 days 460

Medium rose in color with a large creamy white center. An exquisite color combination, soft enough not to clash in most any combination. Holds 6 - 8 open on medium tall well proportioned straight spikes. Makes up well in bouquet and basket work and will win on the show table.

Price L 35c M 25c S 2/25c B 15/25c
VICTORY QUEEN (Wilson 45) 95 days 430

A very likeable deep salmon pink with a cream throat. Attractive ruffling in the 6 or more open florets, plus good facing and placement on tall straight spikes completes the picture. Has a nice clean appearance.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c
VIOLET DICKINSON (Barrett 46) 90 days 501

With its crisp slightly ruffled white florets, its tall somewhat wiry stems, six or more open florets and nicely proportioned spikes, Violet Dickinson fills a place in the 501 class. Has a cream blotch in the throat, edged with a lavender marking. Throat blotch is not prominent and in no way detracts from its nice appearance.

Price L 25c M 20c S 2/30c B 10/25c
WAR PAINT (Kadel 47) 90 days 436

Up against stiff competition on the show table from Red Wing, but for home use, it is hard to beat. Dark scarlet, a smooth color that darkens towards the throat. Will hold up to 8 open on tall nicely balanced spikes. Does not sunburn which is quite an advantage. Excellent commercial.

Price L 35c M 2/35c S 3/25c B 10/25c
WAX MODEL (Krueger 46) 75 days 400

If Wax Model would only stretch a little more, what a beautiful glad we would have. As it is, it seems to be much bigger than it actually is due to the size and placing of the florets. Will hold up to 6 open and a 16-18 bud spike. Has a small lavender spear in the throat to touch off its glistening whiteness.

Price L 12/\$1.00 M 12/65c B 50/25c
W. H. HOSMER (Hatch 49) 80 days 460

An excellent lavender, on the pink or rose side of the scale, with a cream white throat. The 6 to 8 open florets are ruffled, crisp and of excellent texture. Spikes are straight and well balanced.

Price L 75c M 50c S 35c B 5/25c

WHITE CHALLENGE (Arnett 47) 90 days 501

A challenge to anything in the 501 class. Can hold 8 or more open. Wide open rounded florets of a good shape of white but with a rather light toned red throat. Florets start out single file and then double up as they open. Makes tall massive spikes with excellent attachment for so huge a floret. Recommended for trial.

Price L 30c M 20c S 3/30c B 10/25c

WHITE CHRISTMAS (Fischer 48) 85 days 500

Again we had a considerable variance in performance with White Christmas. When you get a good spike, you certainly have a nice one with 6 to 8 florets open on an 18 to 20 bud straight spike. Buds have a creamy cast to them but open up white. Beautiful ruffling. Good Attachment. Good propagation. Well balanced spike

Price L 2/25c M 5/25c S 10/25c B 50/25c

WHITE GODDESS (Roberts 48) 80 days 500

Another one of Robert's good ones. Heavily ruffled, clear clean large white florets, with a very light cream throat. Holds 6 to 8 open on a 20-22 bud spike that invariably comes straight and strong. Germinates well propagates well. Keen competition at the shows and an excellent commercial.

Price L 30c 20c S2/20c B 20/25c

WHITE MAGIC (Kuhn 47) 80 days 400

A smaller edition of White Goddess - clean clear white, heavily ruffled, tall straight spikes with 6 to 8 open. Good attachment. Excellent proportions. There is a very light violet tinge in the throat. Well worth looking at - you will like its clean wholesome look.

Price L 50c M 35c S 25c B 5/25c

WINSTON (Palmer 41) 80 days 406

One of the nicest we grow - its just too bad that it doesn't open a couple more and grow a little taller. Bright clear, creamy white, gradually shading to a lemon yellow in the throat. Wonderful in appearance, with a waxy texture that makes you love it at first sight. Florets are waved and beautifully ruffled. It looks as though it had been carved out of a piece of marble. Not a show flower as it only holds four open, but nevertheless, one you will like very much.

Price L 12/75c M 12/60c S 12/40c B 50/25c

WORLD BEATER (Weltwunder) (Pfister 49) 85 days 411

A medium shade of light yellow with a red throat mark. Will outperform Spotlight as far as holding up to 8 open at one time. Has better spikes too, but we will still take Spotlight, because of its attractive coloring. Comes well rated from the test gardens.

Price L 50c M 35c S 25c B 20/25c

YANKEE LASS (Schenetsky 46) 85 days 440

We like Yankee Lass much better than its sister seedling Connecticut Yankee, although both are good. A clean shell pink, up to 8 or 10 open on tall nicely proportioned straight spikes. Rather slow in propagating, otherwise good.

Price L 35c M 25c S 2/25c B 10/25c

YELLOW HERALD (K&M 47) 80 days 411

A maker of tall straight spikes capable of holding 8 or more open and of excellent proportions. A rich amber shade of yellow, a touch of carmine in the throat, nice ruffling and good attachment complete the picture. Given a little extra in the way of care you can raise prize winners.

Price L 2/25c M 4/25c S 6/25c B 25/25c

MINIATURES

We are offering a fairly large selection of miniatures, enough so that we feel they should be classified separately. There has been a steadily rising interest in miniatures. A few years ago, miniatures got very little attention; now, their popularity has grown so much that they are crowding the larger flowered varieties.

Women, arrangers particularly, appreciate the miniature varieties much more than do we men. For corsage work, arrangements, center pieces, etc., they really are hard to beat. Colors are the same as found in the larger varieties. Some of the newer varieties, Little Sweetheart, Little Gold, Bo-Peep, Twinkles, Wedgewood, etc., are outstandingly beautiful, equal, from a color standpoint, to any of the larger glads. Even the face-up varieties are very interesting. Those interested in varieties for home use should remember that it requires a number of bulbs for enough bloom to be generally effective and except for exhibition purposes, they should not be purchased in too small lots.

ARIA (Kuhn 48) 78 days 242

An early attractive deep pink with a light cream throat. Very pretty. Holds up to eight open on a 20 bud spike. A little high priced but worth the money if you like good ones.

Price L \$1.00 M 75c S 50c B 3/30c

ATHENA (Koerner 45) 75 days 266

Lacinated florets of a bright lavender, shading darker to the edges, with a strip of gold down the two lower petals. Excellent for corsage work where its butterfly shape fits in so nicely. Will fleck once in a while, but otherwise good. Holds about 4 open on typical miniature spikes.

Price L 35c M 25c S 2/25c B 10/25c

ATOM (Hedgecock 46) 80 days 236

Nearly everyone who sees Atom explains, "Oh - how nice" and that tells the story. A miniature in scarlet, the petals edged with white. Very distinctive - excellent for small arrangements or corsage work. Thin wiry stems, with four or five open, spaced fairly well apart. Medium tall stems. Very nice. We seems to grow it in nearer 70 days than the 80 days listed in the classification lists.

Price L 20c M 2/30c S 3/25c B 15/25c

BABS (Pruitt 45) 68 days 210

Still mighty hard to beat this nice light yellow. Will hold six open, beautifully ruffled florets with enough in color to make a nicely proportioned spike. Spike is medium tall. Buds have a greenish cast before opening. An excellent flower for arrangement and corsage work.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

BABY BRONZE 65 days 190

A shade of deep bronze with a russet cast to it. There are splashes of rose in the throat. Typical miniature in its performance.

Price L 2/25c M 4/25c S 6/25c B 25/25c

BASHFUL (Kuhn 42) 90 days 190

A mixture of lavender and cream with a yellow throat. Some deep red blotches on the yellow throat add to its attractiveness. Typical miniature in its growth.

Price L 2/25c M 4/25c S 6/25c B 25/25c

BETTY CO-ED (Briggs 34) 78 days 240

Pink, on the light side with a creamy yellow throat. Florets are slightly hooded, but attractive. Color is useable for both corsage and arrangement work.

Price L 2/25c M 4/25c S 6/25c B 25/25c

BONNY (White 50) 90 days 230

A light clear salmon color with a small diffused rose blotch in the throat. A dart of white adds a pretty touch to the overall picture.

Price L 50c M 35c S 25c B 2/25c

BO-PEEP (Butt 48) 65 days 240

A very much ruffled buff light pink with a faint red peppering on a yellow throat. Very attractive with 5 to 6 3" florets open on medium height spikes. The intense ruffling adds immensely to its beauty.

Price L 25c M 2/30c S 3/25c B 20/25c

BROWN ORCHID (Van Voorhis 40) 85 days 290

An odd shade of velvety brown, yet quite attractive. An exceptionally tall grower for miniature, with tall wiry stems that work well into baskets and arrangements. Holds six or more open and gives an excellent all around performance that leaves little to be desired.

Price L 2/25c M 4/25c S 6/25c B 20/25c

CELESTINA (Vasturo 49) 85 days 207

A lovely cream, a little on the buff side of the cream color. Opens 5 6 on a typical 15-16 bud miniature spike. We found it very interesting last year.

Price L 25c

CORAL BELLS (Clark 30) 70 days 136

Coral pink with a yellow throat with a peppering of red dots in the throat. Contender for the smallest floret at the shows. Holds about 6 open on long wiry spikes. Quite attractive and well liked.

Price L 25c M 2/35c S 2/25c B 10/25c

CRINKLES (Kunderd 16) 105 days 262

About the oldest glad we list, but still one of the nicest of the miniatures. Too bad it is so late blooming for otherwise, it is one of the prettiest miniatures we grow. A medium dark shade of rose, beautifully ruffled on an attractive, nice all around, spike. Holds about 6 open.

Price L 2/30c M 2/25c S 4/25c B 15/25c

CRINKLETTE (Butt 41) 70 days 224

Deep orange with a creamy light yellow throat on which there is an attractive red stripe or feather. Beautifully ruffled with straight spikes. Usually holds 5 open with 5in color and 5 or 6 more buds. Very attractive and one you like instantly.

Price L 2/25c M 3/25c S 4/25c B 15/25c

CUPID (Fischer 49) 70 days 300

With 4 to 5 waxy white blooms open on a medium tall wiry stem we have another good white. Florets are ruffled and are excellent for corsage work. Makes up good in arrangements where a small white is needed. Good grower and good propagator. Well liked all around.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

DAINTY MISS (41) 80 days 240

One of those that you like the first time you see it. A light pink with a cream throat, typical in performance of a miniature. Color is nice and blends well with other glads. Quite attractive in corsage work.

Price L 2/25c S 6/25c B 25/25c

DIXIE BELLE (Lins 40) 100 days 222

A rather unusual thing for a miniature, takes 100 days to bloom. Most of our miniatures run from 60 to 80 days. Slightly ruffled florets of a rich deep orange, offset with a yellow throat. Typical growth and performance of a miniature, except for blooming time.

Price L 25c S 2/25c B 25/25c

DOLORES (Vasturo 43) 75 days 240

Four or five exquisite pink and white florets on a medium tall willowy spike. A white throat adds to the beauty to give us a very attractive glad. Fits well in arrangement work as the color blends well with other colors. Somewhat hooded and a little slow to propagate.

Price L 2/25c M 4/25c S 6/25c B 20/25c

DRAGONETTE (Kaylor 38) 90 days 210

Rather of a late bloomer contrary to the usual miniature. Light yellow florets, edged with pink with the upper petals almost solid pink. Grows a long straight spike, and will hold 4 to 6 open.

Price L 12/80c M 12/60c B 20/25c

DRESDEN (Butt 50) 80 days 210

A very interesting ruffled miniature of a light yellow color, reminding one very much of Babs. Lots of ruffling and a somewhat greenish cast deep in the throat. Will hold more than usual open for a miniature, and seems to give us good spikes.

Price L \$3.00 M \$2.00 S \$1.25 B 30c - 10/\$2.40

ELDORADO (K&M 48) 85 days 312

A good deep yellow in the 300 class. No trace of any markings. Tall spikes, 6 to 8 open, 18 buds. Placement and general outline good.

Price L 35c M 25c

FAIRY (Kuhn 46) 75 days 266

A plain petaled light lavender, somewhat hooded. Holds 4 to 5 open on tall wiry stems. A shade that works well in nearly every place. Attractive, well liked and recommended. Good propagator.

Price L 2/25c M 4/25c S 6/25c B 15/25c

FAIRY FANCY 70 days 206

A ruffled lacinated light cream, lightly hooded. A light yellow throat has a red line down the middle. An odd shaped floret and very interesting for that reason. Florets will run about 3½" in size on a 14 16 bud typical miniature spike.

Price L 12/\$1.00 M 12/70c S 12/50c B 25/25c

FILIGREE (Kuhn 45) 80 days 216

For those of you who are trying for odd shapes, Filigree certainly will fill the bill. Wide open lacinated ruffled florets of an odd buff yellow color, 4 to 6 open on medium tall wiry stems. Very odd shaped, almost triangular but attractive. Just the thing for the "center of interest" in a miniature arrangement.

Price L 25c M 2/25c S 3/25c B 15/25c

FLICKER (Kuhn 46) 75 days 221

An orange with a bright yellow throat, somewhat hooded. A bright scarlet blotch on the yellow throat adds an attractive bit of color to the ensemble. Will hold five open on a medium tall wiry stem. Attractive when made up in arrangements because of its bright colors.

Price L 2/25c M 4/25c S 6/25c B 15/25c

FLOWER GIRL (Dowling 47) 70 days 200

Needlepointed attractive white florets on a medium tall wiry stem. Useful wherever you can use a white miniature, corsage work, arrangements, etc.

Price L 2/25c M 4/25c S 6/25c B 15/25c

GILT EDGE (Kuhn 42) 80 days 250

Another attractive color combination. Light red with an edging of yellow, well named. Holds 4 or 5 open on medium tall wiry stems. Quite similar to Atom, except for it being a light red where Atom is scarlet. Works well in arrangements. Good propagator and healthy.

Price L 2/25c M 4/25c S 6/25c B 25/25c

HOCUS POCUS (K&M 49) 62 days 313

One of the very early bloomers. Dark golden yellow florets on medium tall wiry stems. Inescapably noticeable because of the unusually prominent dark red blotch with forked streaks shooting out from the blotch. Has all of the characteristics of a miniaure even though rated in the 300 class. Holds four or five open and will make as high as 18 buds.

Price L 2/25c M 4/25c S 6/25c B 20/25c

HYLAS (Brown) 66 days 270

A very nice shade of wine purple, just about the color of King Lear. A self color, except deep in the throat where there is a white marking, just at the base of the petals. Everyone seems to like it very much.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

JINGLES (Lins 49) 95 days 230

Salmon with a white throat doesn't sound too interesting, but add pointed petals and heavy ruffling and you get a very attractive miniature. Add further, 6 to 8 open on medium tall spikes, with lots of color on the buds, good proportions, and you have Jingles. Quite attractive and due to stay in the picture for a long time. Wonderful for corsage and arrangement work.

Price L 30c M 25c S 20c B 10/25c

KEWPIE (Brown 30) 65 days 150

Somewhat on the order of Atom but smaller in size. A small decorative red with a picote edging of a silvery tone. Very attractive and likeable all around. Excellent for small arrangements.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

LADY KILLER (K&M 48) 75 days 221

Orange, but to our way of thinking, more of a creamy peach color. Has a noticable red blotch which adds a nice touch of color. Typical miniature in performance.

Price L 2/25c M 4/25c B 20/25c

LAVENDER AND GOLD (Baerman 43) 70 days 366

For sheer beauty this is hard to beat. A beautiful shade of pastel lavender with a yellow throat. Truly a beautiful combination of colors. Will hold 4 to 6 florets open on tall wiry stems. Could be spaced a little closer together, but otherwise nice. Even though classed as 366, it grows and acts like a miniature. Propagates well. Excellent for arrangements.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

LITTLE GOLD (Fischer 50) 80 days 212

We fell hard for Little Gold last year, and this year only confirms our previous judgement. A beautiful golden orange, with the gold predominating. Nice ruffling, good placement, and excellent proportions to the overall picture. Spike is medium tall, about what can be expected on a miniature, but comes straight. Florets open well in water. If you want a bright sparking arrangement, try Little Gold and be convinced. Outstanding.

Price L 25c M 2/25c S 4/25c B 15/25c

LITTLE PAL (Van Voorhis 43) 85 days 261

Light rose in color, darkening a little as it works toward the throat. Cream colored throat. All put up on a nice spike. Different and attractive.

Price L 2/25c M 4/25c S 6/25c B 25/25c

LITTLE PEACOCK (Sisson 50) 77 days 211

Very light yellow with a reddish blotch in the throat. Inclined to be stubby although it has plenty of buds. Can hold four or five open.

Price L \$2.00 M \$1.50 S \$1.00 B 25c

LITTLE SWEETHEART (Fischer 48) 85 days 240

Fischer describes Little Sweetheart as an ethereal pure pink color, blending to a large snowy white throat. It is hard to improve on his description except to add that it is frilled, an overall effect of unforgettable beauty. Will hold about six open on medium tall wiry stems. You will like it for beauty alone, regardless of its size classification. Recommended for miniature fans and for anyone else who likes something outstanding.

Price L 2/25c M 4/25c S 6/25c B 20/25c

LOVELINESS (Koerner 42) 75 days 140

A must have in the miniatures. Shrimp pink suffused white, with a dainty creamy throat. Odd, dainty, but very adaptable for arrangement. Petals are pointed. Can win for smallest floret.

Price L 2/25c M 4/25c S 6/25c B 15/25c

LOVELY MARY (Troyer 50) 80 days 230

A very pleasing shade of salmon with a rich cream colored throat. Will hold six open on a medium tall straight spike. Nice flowerhead. Makes husky plants, looks very healthy. Attractive and worth looking at. Nicely ruffled.

Price L \$1.00 M 75c S 50c B 10/75c

MARCUS (Stevens 49) 60 days 106

Looking for something very small? Marcus is a very small cream miniature, a seedling of Coral Bells, and grows just about like Coral Bells. Quite attractive. Holds 5 open on a 15-17 bud spike.

Price L 50c M 35c S 25c B 4/25c

MARIONETTE (Butt 49) 75 days 213

A ruffled beauty of yellow, flushed with red, darkening considerably the deeper it goes in the throat. An excellent combination of colors. Holds 5 to 6 open on medium tall spikes. Placement and attachment is excellent. Recommended as a good addition to the miniature class.

Price L \$1.00 M 60c S 40c B 4/25c

MASSASOIT (Brown) 78 days 252

A velvety red with darker markings in the miniature class. Clean cut color, one of those shades that attracts because of its intense color. Fine growing habits, producing lots of bulblets.

Price L 2/25c M 4/25c S 6/25c B 25/25c

MAZIE (Brown 35) 75 days 220

Mazie has been with us for a long time and still stays because of its attractive orange color. A lighter shade in the throat attracts your attention. Very nice in arrangement work.

Price L 2/25c M 4/25c S 6/25c B 20/25c

MILDRED PETTMAN (Brown) 68 days 240

Another of the light pink and cream throat combinations enough different from the rest of the same combinations to give it excellent cut flower usage. Works up well in small arrangements and corsage work.

Price L 2/25c M 4/25c S 6/25c B 20/25c

NADIA (Leffingwell 37) 90 days 231

One of the best miniatures we have, even though it is an old timer. Upper petals are bright salmon, the lower petals of a deep yellow - an attractive and well liked color combination. Holds 6 to 8 open on tall wiry stems. Will crook some, but most of the spikes are straight. Good propagator. Frequent winner of sectional champion ribbons.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c
OBERON (Stancer 40) 75 days 236

A brilliant attractive color of orange scarlet. Typical miniature, hooded, with about 4 open on a 12 to 15 bud spike. Grows well, propagates nicely, and makes up nicely for small arrangements where its brilliant color can serve as a focus point.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c
OCEAN SPRAY (Baerman 46) 75 days 206

One of those that has been somewhat overlooked. White with an amber color blotch, giving, perhaps, an overall effect of cream. Very attractive, has a cleanness about it that is appealing. Makes good spikes. Early.

Price L 2/25c M 4/25c S 6/25c B 20/25c
OLIVE MARIE BROWN (34) 90 days 222

A mixture of light bronzy orange and yellow, put up in an attractive package. Medium tall slender wiry stems, 4 to 6 open at a time.

Price L 2/25c M 4/25c B 15/25c
ORANGE BUTTERFLY (Salbach 27) 90 days 222

Introduced in 1927 and still a contender. That is a good record for any glad. Glowing bronze orange, one of these small decorative types that fits so well in arrangements. Spikes are tall and wiry. Holds up to 8 or ten open. Will crook but for arrangements that does not hurt.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c
OSAGE (Brown 35) 236

A nice shade of scarlet, clear, and apparently without fault. Holds 5 to 7 open and a medium tall wiry stem. A winner in the 236 class when well grown, and one that is easy to grow well.

Price L 2/30c M 3/30c S 4/25c B 15/25c
PATTY BERG (Koerner 42) 90 days 162

One of the smaller sized miniatures in a deep rose suffused with white and with a white edging on the petals. Very small and very good for such a small one.

Price L 2/25c M 4/25c S 6/25c B 25/25c
PEASANT MAID (Kuhn 50) 78 days 262

A good deep rose, clear, practically a self color, except for a lighter shading in the throat. Florets are near the top in the 200 class size, with about 6 open and 4 to 6 in color. Spikes are sturdy and stiff. Seems to be very healthy.

Price L \$1.50 M 75c S 50c B 20c
PEGGY ANN (Vasturo 48) 65 days 240

A very light pink with an attractive white throat. The lower petals are marked with pink in the throat. Somewhat hooded, but not enough to detract in any way. Holds 4 or 5 open on tall wiry stems.

Price L 35c M 25c S 20c B 10/25c
PERKY (Hubler 42) 85 days 236

Perky is well named, one of the best of the small ones. Pure scarlet, rolled petals a pretty combination. Holds 6 to 8 open on medium tall wiry stems.

Price L 2/25c M 4/25c S 6/25c B 25/25c

PETALS OF EIGHT (Gosling 50) 75 days 210

Unusual in that it has eight tall petals for each floret. Pale yellow with a red throat feather or scratch. Propagates easily and seems to be very healthy. Price is getting down where anyone can afford to look at it.

Price L 75c M 50c S 25c B 10/25c

PETER PAN (Butt 50) 75 days 233

Another one of the good miniatures. A salmon, or maybe an orange pink, deepening in the throat. Holds up to 7 open on tall straight spikes. Nicely ruffled, good attachment.

Price L \$1.50 M \$1.00 S 60c B 2/25c

PICCOLO, (Koerner, 47) 101

If you want to make a corsage that will draw attention, try Piccolo with its soft creamy color and its purplish red throat mark. Not too many open on its wiry stems, but its spectacular beauty makes up for that. Early.

Price L 2/25c M 4/25c S 6/25c B 20/25c

PINOCCHIO (Evans 40) 75 days 290

A mixture of colors combine to form a rather attractive flower. Pink, yellow, green, orange and red, quite a mixture, but the whole ensemble is attractive. Will hold 5 to 7 fluted and ruffled florets open at one time with straight fairly stretchy spikes. Bulblets are plentiful and propagate very well.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

PINK RIBBON (Spencer 42) 90 days 240

Averages closer to 70 days than 90 days in blooming time this year. A real nice pink that will hold 6 or more open and a medium tall wiry stem. Throat is peppered with red but not enough to detract. Grows well and rates good in its class.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

QUEEN OF BREMEN (Zimmer 28) 75 days 266

Lavender pink with a cream throat - attractive - 6 open on tall wiry stems. Excellent for arrangements and miniature work of any kind. Quite an old timer but plenty good enough to be competition to any of them. Seems to be well liked.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

RED TANAGER 63 days 252

Lightly ruffled and pointed petals of deep red, shading to a darker shade of red in the throat that might almost be called a deep red blotch. Wiry spikes, usually straight. You should like it.

Price L 2/25c M 3/25c S 4/25c B 10/25c

ROSE GEM (Fischer 45) 65 days 360

An early ruffled rose with a cream center. An attractive color combination of a good growing spike.

Price L 2/25c M 4/25c S 6/25c B 20/25c

ROSEMAID (Brown) 68 days 260

A nice shade of rose with darker markings in the throat. Early, a good grower and attractive. Will hold 4 or 5 open on tall straight spikes. Well liked by everyone.

Price L 12/\$1.00 M 12/60c S 12/45c B 25/25c

ROSETTE (Kuhn 42) 85 days 260

Ruffled florets of light rose, overlaid with a feather of a deeper shade of rose. Holds 6 to 8 open on for a miniature, a rather tall stem. Seems to be well liked both for arrangement work and commercially.

Price L 2/25c M 4/25c S 6/25c B 25/25c

ROSY BELLE (Plummer 48) 70 days 262

An attractive miniature in a deep rose color, with blotches of deep rose in the throat. Grows well.

Price L 25c M 2/30c

ROYAL ROBES (Lins 47) 352

Round florets of heavy texture and a velvety sheen are a rich red color. Heavily ruffled. Medium height well balanced spikes. Makes lots of bulblets which germinate nicely. Good show prospect.

Price 2/25c 4/25c 6/25c B 25/25c

RUBY (Kuhn 46) 70 days 252

An attractive shade of medium dark red - it has something about it that attracts one very much. Strong healthy grower, holding about 5 open on a medium tall wiry stem. Florets are somewhat hooded but extremely attractive. We like it very much and so do our customers.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

SILVERSIDES (Kuhn 47) 70 days 262

It is easy to see the silvery sheen from which it is called Silversides. The bright deep rose without any question has a silvery sheen, adding a touch not often found in glads. Holds 6 open on medium tall, wiry spikes. Very attractive.

Price L 2/35c M 2/25c S 4/25c B 25/25c

SMILETTE (Sisson 49) 65 days 260

An odd shade of lavender rose, a cream throat and a wine colored feather. Could almost class as dusty rose. Will hold 3 to 5 open on a compact spike of 14 or 15 buds. Slightly ruffled florets. Good.

Price L \$1.50 M \$1.00 S 60c B 2/25c

SNOW BABY (41) 75 days 200

A useful white holding 4 or 5 pure white florets on medium tall wiry stems. Clean cut and a good miniature.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

SPUN GOLD (Palmer 47) 80 days 312

Another of the deeper yellow in the 312 class. Holds 5-6 open on medium height straight spikes. An early yellow commercial.

Price L 2/25c M 3/25c S 4/25c B 15/25c

STARLET (Baerman 44) 70 days 200

Starlet is well named - a bright sparkling miniature with 4 or 5 waxy frilled florets open at one time on tall wiry stems. Spacking is a trifle too far apart, but otherwise there is nothing to kick about. Very early, good propagator and healthy. You will like it.

Price L 12/\$1.00 M 12/65c S 12/40c B 50/25c

STARTLING 280

An odd shade of light smoky lavender with a cream throat. Florets are ruffled and lacinated. One of the few good smokies. Stock is scarce.

Price L 2/35c M 3/30 S 4/25c B 15/25c

STATUETTE (Butt 50) 65 days 213

A ruffled miniature of clear medium yellow with reddish throat feathers. An attractive color combination. Holds 5 to 6 open on medium tall somewhat wiry stems. Good attachment and placement.

Price L 1.50 M \$1.00 S 60c B 10/\$1.00

STE CECILE (Whitby 49)

Five recurved and needlepointed florets of white with a slight lavender blush open on a medium tall spike. The white blends into a pale yellow throat. Quite nice.

Price L 25c M 2/30c S 3/30c B 15/25c

SUB DEB (Evans 39) 65 days 200

Another of those attractive small whites. Holds 5 to 6 open on a typical miniature spike. Useful for decorative work, corsages, etc. Attractive clean white.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

TAURUS (Kunderd 25) 55 days 270

Light purple with a dark red feather in the throat. Inclined to fleck. Lightly hooded. Holds 3 to 4 open on medium tall wiry stems. An attractive color and would work good in small arrangements.

Price L 12/\$1.00 M 12/65c S 12/50c B 25/25c

TWEEDLEDEE (Van Voorhis 1938) 85 days 250

A blending of red and gold, put up in an attractive package. Six or more open on a typical miniature spike. An excellent small decorative.

Price L 2/25c M 4/25c S 6/25c B 25/25c

TWEEDLEDUM (Van Voorhis 38) 85 days 263

A deep rose color with a yellow throat. A feather of deep rose in the throat brings out its unusual and attractive features. Hooded, with 4 or 5 open on wiry stems. If you have a place where you need something unusual, something startling, try this.

Price L 2/25c M 4/25c S 6/25c B 25/25c

TWINKLES (Butt 48) 70 days 232

A shade of salmon bordering on deep salmon with a nicely contrasting yellow center. Has a red feather in the throat, almost heavy enough to be called a stripe. Nicely ruffled with about five open on a medium tall wiry stem. Very attractive and quite interesting from an arrangement point of view. Well worth looking at.

Price L 50c M 35c S 20c B 8/25c

VIOLA (Kuhn 42) 75 days 279

One of the few good dark violets in the miniature classes. Has a pronounced but attractive blotch of dark rose red. Interesting color, good performer with about 4 open on a typical miniature spike.

Price L 2/25c M 4/25c S 6/25c B 25/25c

WEDGEWOOD (Fischer 47) 80 days 366

One of the best lavenders on the market today, even though it only rates in the 366 class. Will hold about 5 heavily ruffled florets open at one time on a slender well proportioned spike. It has a prominent cream throat and a waxy attractive texture. Well like by everyone. Good show flower and good commercial. Propagates well, healthy - good all around and you should, by all means, have it.

Price L 2/25c M 4/25c S 8/25c B 25/25c

WHITE LACE (Fisher 51) 70 days 200

Snowy white, immaculate, with an ivory throat in florets that are of very heavy texture. Has a waxy sheen to it that is going to make it hard to beat anywhere. Heavily ruffled. Will probably class as 300 instead of 200 as every spike we saw was over the 200 size. Could have a little more stretch to the spike, but for exquisite beauty, it is unmatched, and one can afford to overlook a little shortness in the spike. Good proportions, good attachment, propagates well.

Price L 50c M 35c S 25c B 8/25c

WHITE RIBBON (Spencer 50) 200

Six open, six in color on tall slender spikes, straight and well balanced. Pure white slightly ruffled 3" florets. Makes large bulblets which germinate easily. Quite nice.

Price L 35c B 15/25c

WILL SCARLET (Brown 1930) 68 days 236

One of the old timers but still with us and destined to stay. A small clear scarlet that comes consistently good. Typical miniature in every way.

Price L 12/\$1.00 M 12/65c S 12/40c B 25/25c

YELLOW BIRD (Kuhn 46) 80 days 210

An excellent miniature in a medium shade of yellow. Will hold up to 8 open, far more than the usual miniature. Medium tall flower head on wiry spikes. Florets are round, slightly recurved. Spacing, facing and attachment good. Excellent all around and very useable.

Price L 20c M 2/30c S 2/20c B 10/20c

YELLOW RIBBON (Spencer 46) 82 days 210

A ribbon of bright light color. One of the few miniatures that shows color practically all the way up to the tip. Holds lots open and with the rest of the spike in color, very useable in many places. We like it very much.

L 2/25c M 3/25c

ZONA (Kaylor 27) 65 days 242

Deep salmon with a yellow throat and diffused rose pink blotches. An attractive color combination and very useful as a cut flower.

Price L 2/25c M 4/25c S 6/25c B 25/25c

GARDEN MIXTURE

If you do not care for named varieties, but just want a lot of nice flowers in your garden, why not order our GARDEN MIXTURE? This will give you plenty of flowers, the whole season long, and will also give you a full line of colors. It is not made up of discarded varieties, but is made up as your order comes in. You can have more of the darker colors, or more of the lighter colors if you will tell us when ordering. Of course, none of the varieties are named, they are all mixed together as they are taken from the trays. We know you will be satisfied with our Garden Mixture.

	Per 12	Per 25	Per 50	Per 100
Large bulbs	\$.85	\$1.50	\$2.75	5.00
Medium bulbs	.50	.85	1.65	3.00

ODDS AND ENDS

Every year, when writing up our catalogue, the question arises as to the advisability of listing certain varieties. Sometimes, it is a question of whether we have stock enough to list it, sometimes we have a fair stock of the variety, but plan to discard it—maybe we don't like its color, growth, or any number of reasons. Sometimes it is a variety we have purchased to see how it grows in our part of the country, and lots of times they are varieties we carry along for hybridizing purposes—just raising enough to give us the needed pollen. Each year we list such varieties as these in an "Odds and Ends" listing—with very favorable comments and results.

The stocks listed below are not large, so do not be too disappointed if you do not get them. Listings are made so that if you want some particular variety, maybe an old timer, maybe some of the newer ones, you can include them along with your order for the other varieties.

IN CLOSING

To prepare a catalogue is caretaking work; it must be comprehensive, charming, critical, yet it must be fair; it must be straight forward, well composed, but not wearisome. Innumerable references must be made to records so that the classification for color, size, year of introduction and growing time are shown correctly. Most of all, an unbiased, dispassionate expression of OUR OWN opinion of a variety must be given, to aid you, as far as we can, in making an intelligent careful selection. We try to be strictly fair in stating our opinion—all comments, unless otherwise stated, are from our own observation of the variety as grown by us, or as grown in adjacent gardens.

We hope you have been able to get unexpected values out of your reading of our catalogue. We highly appreciate your past business, your charming letters of thanks, and hope for a further continuance of your patronage.

Earl E. Platell
